

Drought & Cold Hardy Planting Recommendations

The Conservation Seedling Nursery

This list contains species we produce for the 2023 / 2024 season that prefer or can tolerate dry to moderately dry soil conditions with a high level of cold hardiness.

For more information about each species click the link to visit our catalog, [here](#).

Or visit, <http://https://dnrc.mt.gov/Forestry/Conservation-Nursery/resources-catalog>
