Red Rock Lakes NWR Water Compact

Red Rock Lakes NWR

NHDFlowline

DNRC Basins

Reserved Right Summary

Streams within refuge have an instream flow right to remaining flow after satisfaction of all upstream state-based rights with priority before final approval of the compact (2/1/1997). Minimum Flow rights exist for three streams at the point they enter the refuge:

(1) Red Rock Creek - 15 cfs
(2) Tom Creek - 1.4 cfs
(3) Odell Creek - 11 cfs

These are subordinate to all upstreamstate-based rights for domestic or instream stock -watering. Priority Date: 4/22/1935, subordinate to 2/1/2000, excepting Minimum Flow Rights which are only subordinate to upstream domestic and stockwatering rights.
