

*Serving Montanans First through Natural Resource  
Management*

# DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION

ANNUAL PLAN

FY2024

The department is responsible for managing state trust land; protecting Montana's natural resources from wildfire; promoting stewardship of state water, soil, forest, and rangeland resources; aiding the conservation districts; providing natural resource conservation education; and providing support to the Board of Oil and Gas Conservation and other commissions and advisory councils. Our vision is to serve Montanans first through natural resource management.

### **CENTRALIZED SERVICES DIVISION**

Provides management and administrative services for the department. This includes activities such as legal, human resources, financial, information technology, records management, administrative hearings, safety, and communication services.

### **OIL AND GAS CONSERVATION DIVISION**

Is responsible for programs operated for the prevention of resource waste through regulation of oil and gas exploration and production. This division supports the quasi-judicial Board of Oil and Gas that is charged with regulation of the industry.

### **CONSERVATION AND RESOURCE DEVELOPMENT DIVISION**

Provides administrative, legal, and technical assistance and financial grants to the conservation districts and manages natural resource conservation and development grant and loan programs for local governments, state agencies, and private individuals. The division also administers five attached councils and commissions and the Montana Sage Grouse Oversight Team.

### **WATER RESOURCES DIVISION**

Is responsible for the administration of all water use within the state, including maintaining the database for all water rights, providing technical and legal support for implementation of approved water compacts for Indian tribes and federal agencies, managing state water projects, investigating water use act violations, ensuring dam safety compliance, and providing water adjudication support to the Water Court.

### **FORESTRY AND TRUSTLAND DIVISION**

Is responsible for planning and implementing forestry programs statewide. Division responsibilities include protecting natural resources from wildfire, regulating forest practices, providing a variety of services to private forest landowners, implementing cross boundary projects to build resilient forests, sustainable economies, and fire adapted communities, increasing forest restoration, management and health on federal lands, and growing and selling seedlings for conservation and reforestation plantings on state and private lands in Montana.

The Division also manages state trust land resources to produce revenues for the trust beneficiaries while considering environmental factors and protecting the future income-generating capacity of the land. This work is done under the direction of the State Board of Land Commissioners (comprised of the Governor, State Auditor, Attorney General, Superintendent of Public Instruction, and Secretary of State), who are constitutionally charged to oversee trust resources. The department director is the chief administrative officer of the board.

## Strategic Outcome

# #1

### BETTER MANAGE OUR LANDS

Improve and expand forest management by utilizing all available tools across management ownerships and meet Trust Land Management Division Annual Sustainable Yield target.

#### Key Measures

- Have 70,000 acres under management by December 2024.
- Identify 2 landscape-level\* projects.
- Establish related agreements for 2 landscape-level projects.
- Achieve the increased annual timber sales volume in Fiscal Year 2024 of 60 million board feet.
- Complete 10 Community Wildfire Protection Plans.

\* Over 10,000 acres

## Strategic Outcome

# #2

### STREAMLINE PERMITTING AND REGULATORY PROCESSES

Increase efficiencies that will reduce customer time in water permitting process.

#### Key Measures

- Commence rule and guidance updates for consistency with the 68<sup>th</sup> Legislative session HB 114 passage and new statutory deadlines.
- Adopt rule package by January 2024.
- Apply new guidance and permitting process to achieve to reduce processing time from 360 days to 105 days.

  <b>Strategic Outcome</b>  <b>#3</b>	<b>IMPROVE CUSTOMER SERVICE</b>	
	<b>Making accurate water right and public land access information easy to find and use.</b>	
	<b>Key Measures</b>	<p>Launch the overhauled Water Right Query System which is a user-friendly tool for citizens to access accurate and detailed information about Montana water rights by December of 2024.</p> <p>Publish a digital Public Access Map for state trust lands by December 31, 2024.
