

# YOU ARE INVITED

---

WEBINAR: Montana DNRC has undertaken the development of a statewide wildfire risk assessment to assist with planning and prioritizing work around the three goals of the cohesive strategy- Fire Adapted Communities, Resilient Landscapes and Effective Response to Wildfire.

The end-product is a comprehensive geospatial dataset which represents wildfire risk to communities in Montana.

The webinar will review the datasets used, modeling process and cover results of the risk assessment.

Hosted by Montana DNRC &  
Northern Rockies Fire Science Network  
with Pyrologix

When: April 23<sup>rd</sup>  
9am - 11am  
Q&A to follow
