**Protecting Agencies' Strategies:**

Full suppression and perimeter control.

**Cost Share Methodology and Rationale:**

The cost share methodology chosen for this fire will be based on acres burned according to ownership and jurisdiction.

The DNRC is responsible for fire costs on State and Private lands. The BLM is responsible for fire costs on BLM owned land.

Both agencies have similar values at risk and agree on the same protection strategy.

The following is the breakdown of acres burned in the Flat Creek fire:

- Private: 258 acres (Approximately 47%)
- BLM: 282 acres (Approximately 52%)
- State: 7 acres (Approximately 1%)
- Total: 547 acres

A map depicting the acres described above is attached.
