

Wildland Urban Interface Parcels Wibaux County

 Wibaux WUI Parcels 2011

WUI boundaries were created by individual counties through their Community Wildfire Protection Plan (CWPP) planning processes. Varying methodologies in WUI delineation resulted in county WUI representations that are inconsistent at the state level. Montana Department of Natural Resources and Conservation Fire and Aviation Bureau was required by 2009 S. B. 131 to identify wildland urban interface parcels using CWPP WUIs.
