

Appendix 13: Relationship between Interim Instream Flows and FIIP Node Instream Flow Water Rights

This appendix itemizes the interim instream flows established pursuant to *Joint Board of Control v. United States*, 832 F.2d 1127, cert. denied 486 U.S. 1007 (1988) as identified in Article III.C.1.d.iv, and links those flows to the specific instream flow water rights identified in Article III.C.1.d.ii that, upon their enforceability, will replace the interim instream flows. These interim instream flows are originally identified in: a) Exhibit K of the *United States Department of Interior Bureau of Indian Affairs, 1990 Flathead Agency Operating Procedures for Irrigation and Fisheries*, b) correspondence from the Flathead Agency Superintendent dated September 29, 1998; and c) Table 4-1 supplement 10 to the Biological Opinion for Bull Trout and Bull Trout Critical Habitat Flathead Indian Irrigation Project – Operation, Maintenance and Transfer 2009.
