

## Werner Peak Lookout

### *Stillwater State Forest*

Werner Peak Lookout sits at 6,960 feet atop the Whitefish Mountain Range approximately 23 miles from the city of Whitefish. Attractions to the site include picturesque 360-degree views of the Whitefish Mountain Range, Glacier National Park and Flathead valley. The historic Ralph Thayer Memorial Trail

runs adjacent to the lookout. This trail is part of a system of trails that extends from Werner Peak to Diamond Peak and Red Meadow Lake.

**AVAILABLE: 2020 DATES & RATES:** July 1 – August 2nd (limited dates available due to scheduled outhouse replacement and other needed maintenance). \$50.00/night.

**AMENITIES:** Propane cook stove, lights, heater, dishes, pots & pans, utensils & cutlery, cleaning items, two single beds and two cots, blankets, games and outhouse.

Visitors must supply their own water as none is available onsite. Due to natural terrain, renting the facility with children under the age of 10 is prohibited.

**DISCLOSURE:** The Werner Peak Lookout is in a remote location. To provide this facility for rent to the public, maintenance costs must be kept to minimum and basic cleaning and management of the amenities (such as propane appliances) are mostly the responsibility of the parties using the facility. Although this system has been largely successful in the past, there are no guarantees that all amenities will be functioning or that the previous renter has performed the check-out procedures adequately. It is suggested that you come prepared to stay at the lookout in "camp like" conditions. This would include bringing items such as; coolers, gas lamps, extra blankets, cook stove, etc.
