

Montana Water Supply Initiative - Upper Missouri River Basin

Individual Input

Public Meetings - September 30 - October 9, 2013

Table # ____

What water-related issues should be addressed as we plan for Montana's future?

1. _____

2. _____

3. _____

4. _____

Do you have additional information on shortages, use projections, or data gaps? If so, see other side.

Please record your Table number above and give this form to Kathleen before you leave! Or e-mail to k.williams@bresnan.net or mail to her at 202 S Black, Ste 505, Bozeman, MT 59715 by October 11.

Montana Water Supply Initiative - Upper Missouri River Basin

Contribute to the baseline of information for this project; add your information below:

What's working well (i.e., water supply conditions that shouldn't be changed):

Where are there oversupplies of (i.e., too much) water? For whom, when, to what effect?

Where are there shortages (too little) water? For whom, when, effect?

Projection information that should be included in this project (please include topic, relevance, and source):

What data gaps should be closed as part of this project? Do you have suggestions on how to do so?

May we contact you if we need to follow up on the information above?
