

Montana Water Summit

Water in a Changing West

March 6 -7, 2018

Radisson Colonial Hotel, Helena

Montana Fish,
Wildlife & Parks

The Montana Water Summit will explore pressures on the state's water resources due to growth, development, and climate change. The goal of the Summit is to foster a statewide, multi-disciplinary discussion about innovative solutions and Montana's water future.

Summit highlights include thought-provoking plenary sessions, a special topics lunch, a panel discussion with past water policy legislators, innovative adaptation case studies, an interactive workshop, and dynamic presentations from visiting western water experts.
