## Classroom Program Descriptions

- **Disaster Preparedness** -Are you ready? Here you will get valuable tips on how to expect the unexpected.
- **A Flood of Memories** -Learn how Miles City has been shaped by its relationship with the Yellowstone and Tongue rivers. This session includes fun-to-look at photos.
- **Flood Insurance 101** -Have questions about the National Flood Insurance Program? Get them answered here.
- **Floodplain Map Modernization Process** - Heard "talk" about FEMA's digital floodplain mapping program? Have questions about the mapping process and mapping in Montana? Find out here.
- **River Challenges Upstream and Down** - Miles City faces specific flood risks. Here you will learn about them and different approaches to flood management
- **River as Friend** -Rivers and riverbanks are beautiful, fun and full of life. This session will explore recreational and other opportunities for the community.
- **Smart Planning** -Join local and state floodplain management staff to learn why and how to be good stewards of the river and its floodplain.

Hungry for food as well as knowledge? The Miles Community College Cafeteria will be open throughout the day, featuring a full menu as well as additional information on modern flood control methods and techniques.
