

HELENA REGIONAL OFFICE CIVIL ENGINEERING SPECIALIST

Helena, Montana | \$56,682-62,980 yearly based on qualifications

**NOW
RECRUITING!**

DUTIES

The Montana DNRC Water Resources Division is currently recruiting a Civil Engineering Specialist for the Helena Regional Office. The individual sought for this position will perform a variety of advanced engineering analyses and provide technical support to water projects, water management, and water rights issues. As part of the Helena Regional Office, the Civil Engineering Specialist is responsible for:

- ▶ **Establishment of water policies and guidance**
- ▶ **Implementation of the Dam Safety Program throughout southwestern Montana**
- ▶ **Technical review of floodplain permit applications and floodplain mapping studies**
- ▶ **Technical review of water right applications and field verification of water usage**

QUALIFICATIONS

Qualified candidates should possess the following:

- ▶ **A strong background in Civil, Geotechnical, Hydrologic, and Hydraulic Engineering**
- ▶ **A knowledge of floodplain permitting**
- ▶ **An understanding of the Montana water rights system**
- ▶ **Experience in construction inspection and project oversight**
- ▶ **Experience working with diverse groups and individuals**
- ▶ **Proven problem solving, time management, and leadership skills**
- ▶ **The ability to make legally defensible decisions in a timely fashion**

BENEFITS

Great benefits associated with living in Helena and working for the Montana DNRC include:

- ▶ **Generous time off—15 working days annual leave, 12 days sick leave, and 10-11 paid holidays per year**
- ▶ **Compensation time earned over 40 hours per week**
- ▶ **Public Employee's Retirement program**
- ▶ **State-paid premiums toward employee medical, dental, and basic life insurance coverage**
- ▶ **Excellent outdoor recreation opportunities, including access to Glacier, Yellowstone, and other state and national parks**
- ▶ **Casual dress, fun coworkers, and a relaxed office environment**
