

# Project Timeline Carbon County Floodplain Maps Update

**Flood Study Conducted**  
 4 steps of a flood study.

- 1) Survey & LiDAR
- 2) Hydrology (flood flow)
- 3) Hydraulics (engineering)
- 4) Mapping (delineation)

**Public Review**  
 2 public open houses are usually held during this time. Once at draft map stage and again at preliminary map stage.

During this time public comments are encouraged. There will be a official 90 day appeal period after the maps become preliminary.

**Resiliency and Mitigation efforts**  
 Once new maps become effective the community can determine what mitigation efforts it would like to pursue to reduce flood risks.
