

DNRC WATER RIGHT INQUIRY INSTRUCTIONS

Is your project subject to DEQ sanitation or subdivision review? If so, how do you intend each structure to obtain both potable water and water for lawn and garden irrigation? Before the DEQ approval can be finalized (allowing you to move forward with your project), you must first obtain a water right or have a plan approved by DNRC indicating that your usage does not require a beneficial water use permit. This process is required under ARM 17.36.103(s).

Please send a written request for a determination by DNRC regarding water right requirements for your proposed project. Your request should include the following information:

- A map of the land parcels in question (including quarter section(s), section, township, and range.)
- Flow rate required
- Purposes required—include everything you’ve projected in your plan
 - Domestic (include how many residences or units)
 - Lawn & Garden Irrigation (include possible irrigated areas)
 - Be sure this matches any information provided in the subdivision CC&Rs
 - If the CC&Rs say the residents must maintain a lawn and you say no irrigated areas in the subdivision, DEQ will restrict your approval to include no irrigation.
 - Include any irrigated parks / common areas
 - Any other purposes projected such as commercial, industrial, etc.
- Volume required for each purpose. If you don’t know the volume required, feel free to use DNRC standards listed on the Form 615 available on the web.
 - The DEQ domestic standard is .28 AF per household. If you believe a use of less than .28 AF per household is acceptable, you must request a deviation from DEQ. If your deviation request is approved, include a copy with your submittal to DNRC. DNRC will not accept a request to use less than .28 AF per household without DEQ approval.
- If more than one well is proposed, be sure to indicate which uses (# connections, # acres, etc.) will be attributed to each well.
- Well log(s) if the well(s) has been drilled

Please note: If you do not provide sufficient information in your request, DNRC will contact you for the additional information required. If, after attempting to contact you, the request is still deficient, DNRC will send a response indicating that. The response from DNRC will be forwarded to DEQ for its use in determining if your Certificate of Subdivision Approval is able to move forward. DNRC will respond within 20 business days of receipt of your request.

Send your request to:

<p>BILLINGS: 406-247-4415; Airport Industrial Park, 1371 Rimtop Dr, Billings MT 59105-1978 Serving: Big Horn, Carbon, Carter, Custer, Fallon, Powder River, Prairie, Rosebud, Stillwater, Sweet Grass, Treasure, & Yellowstone Counties</p>	<p>HELENA: 406-444-6999; PO Box 201601, Helena MT 59620-1601 Serving: Beaverhead, Broadwater, Deer Lodge, Jefferson, Lewis & Clark, Powell, & Silver Bow Counties</p>
