

**APPLICATION FOR CHANGE OF A WATER RIGHT
SALVAGE WATER REPORT ADDENDUM**

§ 85-2-419 MCA

This addendum must be completed and the required information attached to a change application if the application includes appropriation of water made available for use from an existing valid water right through creation of a water-saving method.

Attachments must be labeled as shown in the sections below (i.e. SWA.2). If a section is not applicable, label the section as Not Applicable or NA.

The following are not water savings methods:

- Destroying phreatophytes
- Deforesting cottonwoods, trees, brush or the removal of vegetation
- Converting to a less consumptive crop
- Converting from a historic "full" irrigation schedule to a "partial" irrigation schedule

The following are not necessarily water savings methods:

- Converting from flood irrigation to sprinkler irrigation

SWA.1. What water saving method was implemented?

- Lined an unlined ditch or canal
- Converted unlined ditch or canal to pipeline
- Converted high profile or high pressure sprinklers to low pressure
- Converted irrigated fields to non-irrigated areas
- Other - explain _____

SWA.2. How much water was salvaged from creation of the water saving method?

_____ GPM _____ Acre-Feet

SWA.3. How did you determine the water saving method will salvage the amounts shown in SWA.2?
