Sept. 9th, 2014

Dear Interested Party:

The Department of Natural Resources and Conservation (DNRC), Kalispell Unit, is proposing the Rhodes Draw Sanitation Timber Project. DNRC is in the initial stages of public involvement and project development for an environmental analysis. This proposal would harvest approximately 500 thousand board feet of timber from approximately 558 acres of State School Trust lands.

The State Trust lands being considered include portions of Section 16 Township 29 north, Range 23 west. This project is part of an ongoing effort to produce revenue for school trusts and maintain a healthy and productive forest into the future.

DNRC is interested to know any issues or concerns you may have. A 30-day comment period provides the public an opportunity to become involved at the initial stage of this project. Your early involvement could provide information to help identify potential issues and carry out the first stages of the analysis process. If we do not receive communication from you during the comment period, your name will be removed from the address list for this project.

Written comments regarding this project need to be received by October 13, 2015. Please address written comments to Pete Seigmund, Department of Natural Resources and Conservation, 655 Timberwolf Parkway, Kalispell, Montana, 59901, or email to pseigmund@mt.gov.

Sincerely,

A handwritten signature in blue ink that reads "Pete Seigmund".
