**FISH CREEK BEES
INITIAL PROPOSAL**

The Missoula Unit has received a request from Bert Wustner dba Bert's Bees to place approximately 40 beehives on DNRC ownership in the NWNW of Section 30 T13N R24W. The proponent has indicated that he would like to have the hives on site from July 1 through October 1.

The DNRC is in the scoping phase of the project environmental assessment. In preparation for this project, specialists such as wildlife biologists, hydrologists, soil scientists, and archeologists will be consulted.

The Montana DNRC invites written comments and suggestions concerning this proposal. Please respond by April 10, 2015 to:
