

**FORM 602, NOTICE OF COMPLETION OF GROUNDWATER DEVELOPMENT
EXCEPTIONS FOR A SMALL GROUND WATER DEVELOPMENT**

**North Hills Temporary Controlled Groundwater Area
INSTRUCTIONS**

The North Hills CGWA is located within the following legal descriptions:

- Township 11 North, Range 3 West; All of Sections 6, 7 and 8, the North Half of Section 9 and the North West Quarter of Section 18
- Township 11 North, Range 4 West; All of Sections 1, 2, 11, 12, 13, 14 and the North West Quarter of Section 24
- Township 12 North, Range 3 West; All of Section 31

Use this form for the following:

1. A new well;
2. An existing well that does not have a legally filed water right; or
3. A well that replaces an existing well does not have legally filed water right.

For a new well that replaces an existing well that has a legally filed water right, complete and file Form 634, Replacement Well Notice.

It is important to accurately provide all of the information requested. A description of your right will be as good as the information you provide. If incorrect information is provided, no water right may exist or in the case of land descriptions that are incorrect, you may not receive notification of proposed projects in the area that may impact your development.

Complete items 1 through 5 ONLY if you have determined this is the correct form to file.

Item 1. Enter the complete name of the person to be listed as the water right owner(s), their mailing address, and phone numbers.

Item 2. Check the type of ground water development used to obtain the ground water – well. If the source is a developed spring or ground water pit or pond, complete Form 602, Notice of Completion of Groundwater Development.

- Attach a copy of the well log for the well.

Item 3. Enter the flow rate used.

Item 4. Enter if it is a combination or shared development

Item 5. Select the purposes for which the water is used. Answer the questions associated with that purpose. Specify the period of use each purpose will be used.

Item 6. Enter the land description for the location of the development (well, spring, etc.). Describe the location to the nearest 10 acres if possible. Legal land descriptions may be obtained from the well log; the county records; or from the Montana Cadastral system at: <http://www.gis.mt.gov/>.

- | | |
|--------------------------|--|
| Subdivisions – | In addition to the above description, enter the lot and block or tract number, subdivision name. |
| Government Lots – | In addition to the land description, enter the government lot number. |
| Certificate of Survey - | In addition to the land description, enter the survey number. |
| Street or Road Address – | Enter the physical address of the development including city, state, and zip code. |

Item 7. Attach a plat or USGS quad map, or an aerial photo and depicts the location of the well or spring.

Item 8. Enter the land description for where the water is used. Describe the location to the nearest 10 acres if possible. Legal land descriptions may be obtained from the county records or from the Montana Cadastral system at: <http://gis.doa.state.mt.us/cadastral/maps.html>.

- | | |
|--------------------------|--|
| Subdivisions – | In addition to the above description, enter the lot and block or tract number, subdivision name. |
| Government Lots – | In addition to the land description, enter the government lot number. |
| Certificate of Survey - | In addition to the land description, enter the survey number. |
| Street or Road Address – | Enter the physical address of the development including city, state, and zip code. |

Item 9. If the statement is accurate, sign and date the form.

Send the following items to the office listed on the back of this form.

- Completed Form
- Well Log
- Map

IMPORTANT NOTICE: If a water right is issued to you, you will be subject to the following requirements:

- 1) **Static water measurements taken by DNRC each quarter. If the DNRC is not taking the measurements, contact Kathy Moore at L&C Water Quality Protection District 457-8926 to determine your responsibilities.**
- 2) **Annual water quality tests for coliform bacteria, chloride, and nitrates. Send the measurements and water quality tests to the DNRC.**
