

# Minerals Management Bureau

MINERALS MANAGEMENT BUREAU  
ARRINGTON, CAROLYN

# **INTRODUCTION**

This report was prepared by the Minerals Management Bureau (MMB or the Bureau) within the Trust Land Management Division and contains information gathered by the Bureau regarding State of Montana mineral leases. The report provides production and revenue information for each lease type managed by the Bureau.

Within each lease type, there are reports providing income by county, area office, and grant. Revenue and pricing information was compiled using the cash basis method of accounting. Oil and gas production was compiled using information reported on the State of Montana Form 5 Royalty Report each month.

For questions or additional information contained in this report, contact Carolyn Arrington by telephone at (406) 444-0292 or e-mail at [carrington@mt.gov](mailto:carrington@mt.gov).

**TOTAL REVENUE**

**\$20,292,165**

\* Non-Trust Land revenue consists of revenue the Department of Natural Resources and Conservation collects as an administrator for various entities. These funds are distributed to the entity upon collection.

\*\* Royalties collected on behalf of Public Buildings are deposited into their Distributable Trust fund

## **LEASES**

**Oil & Gas Leasing:** In FY21, oil and gas leasing decreased by 13.1% from FY20 to a total of 1,126 leases. Quarterly lease sales in FY21 totaled 68 new leases. Bonus revenue for new leases in FY21 totaled nearly \$101 thousand compared to \$359 thousand on State trust lands in FY20. The number of producing leases decreased by 1.1% to a total of 608 producing leases, and now make up 54% of all oil and gas leases. Oil and gas leases account for a little less than 430 thousand of the 6.2 million mineral acres on State trust lands, which is a decrease of 14.1%.

**Hard Rock – Industrial Leasing:** The total number of metalliferous and non-metalliferous leases increased by one for a total of 9 leases, covering 3,514 acres.

**Gravel Permits:** Permit counts increased during FY21 to 46 permits. Producing permits increased by 6 to a total of 40 permits. Gravel royalty revenue in FY21, totaled nearly \$295 thousand which was a 21.46% decrease from FY20.

**Coal Leasing:** The number of coal leases remained constant at 31 leases covering 14,692 acres with 6 producing on 2,520 acres.

**Land Use Licenses** decreased to 28 leases in FY21. Acreage assigned to those licenses decreased by 4.7% to 4,032 acres.

**Small Volume Permits and Permits to Test for Aggregate** are not in the table below. During FY21, DNRC field offices issued 5 small volume permits and 8 permits to test for aggregate, as compared to 8 and 4 permits respectively in FY20.

**MMB activities:** Activities related to existing leases include collecting royalty and rental payments, auditing, review of all proposed leases, reviewing and approving assignments and tracking working interest ownership, reviewing and preparing for approval of communitization agreements and unit operating agreements, and coordinating with field offices the environmental review and approval of all proposed physical operations on State leases.

### **Producing Leases Criteria:**

**Gravel Permits** - Includes permits that produced during the fiscal year. Does not include advance royalties paid. Does not include small volume or test permits.

**Coal Leases** - Includes leases that produced during the fiscal year. Does not include advance royalties.

**Land Use Licenses** – Includes activities such as salt water disposal, access roads and pipelines constructed on State land.

**Metalliferous Leases** - Includes leases that produced during the fiscal year. Does not include advance royalties.

**Non-Metalliferous Leases** - Includes leases that produced during the fiscal year. Does not include advance royalties.

**Oil and Gas Leases** - Includes any lease with a well that is capable of production.

| Type of Lease                   | No. of Leases | % Change from FY20 | Acreage Leased | % Change from FY20 | Producing Leases | % Change from FY20 | Producing Acreage | % Change from FY20 |

## **OIL AND GAS REVENUE AND PRODUCTION**

**Oil:** In FY2021, oil production increased by 1.0%. Even with the increase in price, oil revenues decreased by 23.4% to \$5.0 million as compared to \$6.5 million in FY. There were 235 expired or terminated leases. In FY21

the average price for a barrel of oil produced from State land leases was \$47.18 as compared to \$43.53 in FY20, an increase of 8.4%. Oil royalties accounted for 24.7% of all revenue received in FY21.

**Gas:** In FY21, the average price for gas produced on State lands increased to \$2.16 from \$1.15 per thousand cubic feet (mcf), representing an 87.8% increase from FY20. Gas production decreased by over 100,000 mcf to a total of 2,015,137 thousand cubic feet in FY21. Due to the

increase in price, royalty revenue increased by 116.7% to \$966,392. Gas revenues accounted for 4.8% of all revenue received in FY21.

## COAL LEASES

**Production:** Coal production on State trust lands increased by 17.5% in FY21 to 6,652,768 tons mined compared to 5,662,097 tons mined in FY20. All coal reported was from six State leases in Big Horn, Musselshell and Rosebud Counties. The volume of coal mined can change significantly from year to year, as mining activity moves on to or off of State land within the normal sequence of operations. Coal production figures represent the twelve production months during the fiscal year, regardless of the date it was received.

### Royalty and Production by County - Coal

| County       | Royalties (\$)         | Production (ton) |
|--------------|------------------------|------------------|
| Big Horn     | \$8,674,191.23         | 4,890,353        |
| Musselshell  | \$667,677.32           | 597,433          |
| Rosebud      | \$3,783,082.87         | 1,164,982        |
| <b>Total</b> | <b>\$13,124,951.42</b> | <b>6,652,768</b> |

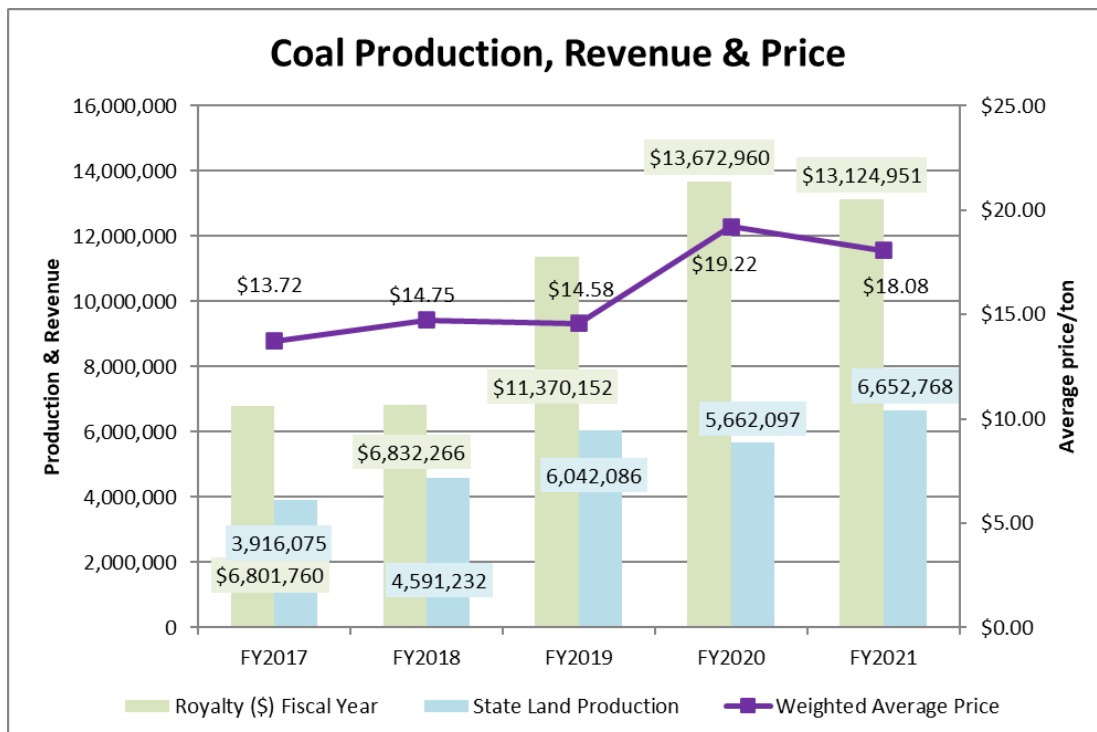

### Royalty and Rental by Area Office - Coal

| Area Office  | Royalty Income         | Rental Income      | Total                  |
|--------------|------------------------|--------------------|------------------------|
| ELO          | \$3,783,082.87         | \$4,779.96         | \$3,787,862.83         |
| SLO          | \$9,341,868.55         | \$8,746.23         | \$9,350,614.78         |
| <b>Total</b> | <b>\$13,124,951.42</b> | <b>\$13,526.19</b> | <b>\$13,138,477.61</b> |

### Royalty and Rental Income by Grant - Coal

| Grant          | Royalty Income         | Rental Income      | Total                  |
|----------------|------------------------|--------------------|------------------------|
| Common Schools | \$13,124,951.42        | \$13,526.19        | \$13,138,477.61        |
| <b>Total</b>   | <b>\$13,124,951.42</b> | <b>\$13,526.19</b> | <b>\$13,138,477.61</b> |

**Revenues:** In FY21, coal royalty revenues totaled \$13,124,951. Royalty revenue decreased by 4.01% over FY20. Average coal prices for State land production decreased to \$18.08 per ton from \$19.22 per ton in FY20. Revenues reported are those received and processed only during the fiscal year. All coal revenues received in FY21 on State trust land leases benefit the common schools grant.

## **LAND USE LICENSES**

### **Land Use Licenses:**

- Can apply to any type of mineral and are issued for mineral activities that are not included in other types of leases or permits.
- The length of license is determined by individual situation.
- Examples of licensed activities include salt water disposal, access roads and pipelines to non-State wells, non-mechanized prospecting for minerals, groundwater monitoring wells, gravity surveys and infrastructure for coal bed methane fields.
- Under a Land Use License for non-mechanized prospecting, the user may explore but cannot remove or sell minerals.
