MONTANA HISTORICAL SOCIETY  
SALE OF LAND

**Land Board Agenda Item  
July 21, 2025**

**0725-1 Montana Historical Society: Sale of Land**

**Location:** Jefferson County

**Trust Beneficiaries:** N/A

**Trust Revenue:** N/A

**Item Summary:**

The Montana Historical Society (MTHS) proposes to hold a public auction for vacant property located at 331 West Farm Road near Three Forks, Montana.

**Background:**

Thomas Nygard donated 326.31 acres of land to the Montana Historical Society in 2009. The intent of this gift is for the proceeds from the land sale to be designated toward the construction of the Montana Heritage Center. The Land Board previously approved this land for sale in 2017, however, due to a lagging real estate market, the land was not sold. The Land Board again approved the land for sale in May 2024, and MTHS scheduled two auctions in August and September but received no bids.

In March 2025, MTHS received an updated appraisal. Market conditions for undeveloped land in the Three Forks area changed slightly since 2024 but remains positive. The appraisal of the property is in-line with the original valuation of the property at \$950,000. With Land Board approval, MTHS will offer the land for sale through public auction with funds benefiting the construction of the Montana Heritage Center. Proceeds from the sale will be utilized immediately.

**Location:**

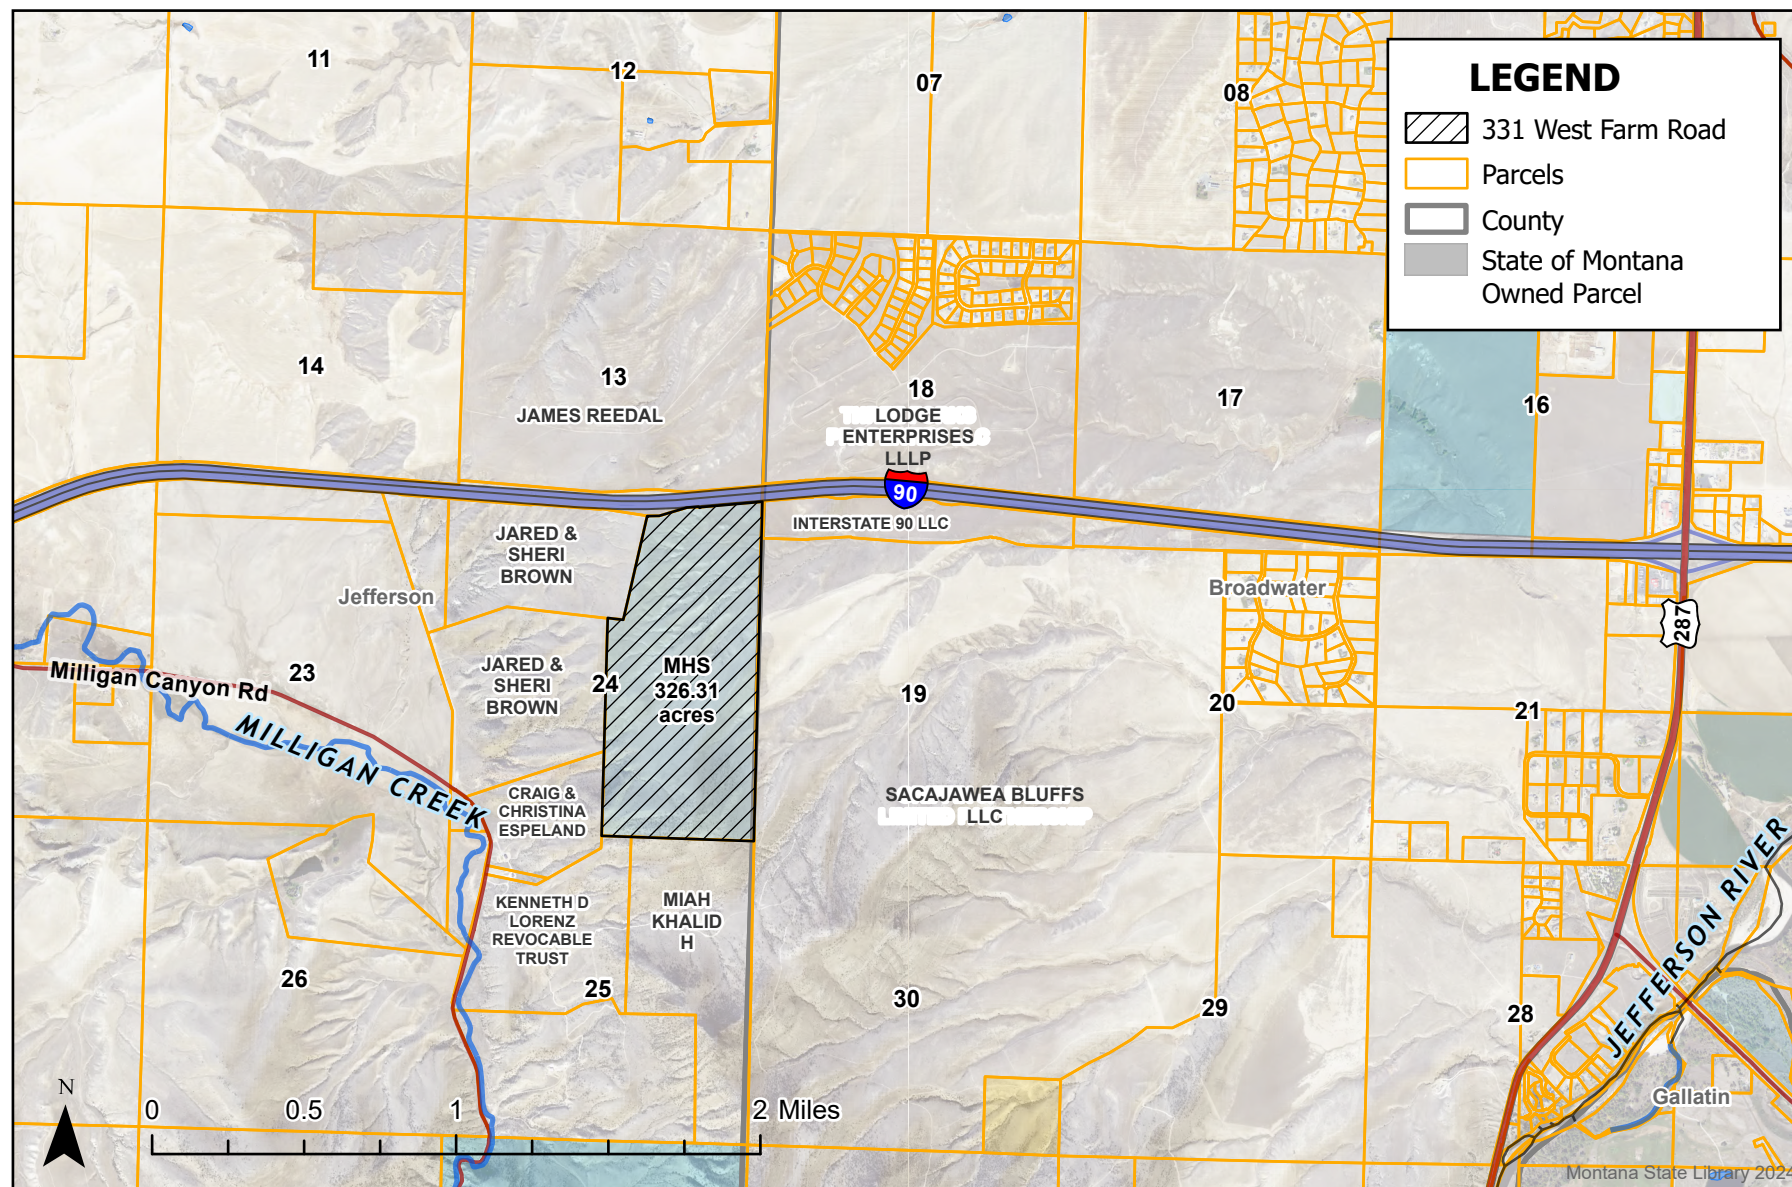

This property is located in Jefferson County, approximately three miles west of the Interstate 90 and Highway 297 junction, near the Broadwater County border.

**Legal Description:**

Tract 1 of COS 222039 F830A, Section 24, T2N, R1W.

**Recommendation:**

MTHS requests Land Board approval to sell the property at public auction for the appraised value of \$950,000.

TIMBER SALE

BEAVER CREEK

**Land Board Agenda Item  
July 21, 2025**

**0725-2 Timber Sale: Beaver Creek**

**Location:** Lincoln County

**Trust Beneficiaries:** Common Schools

**Trust Revenue:** \$117,598 (estimated, minimum)

**Item Summary**

**Location:** The Beaver Creek Timber Sale is located approximately 7 miles southwest of Trego, Montana.

**Size and Scope:** The sale includes 8 harvest units (161 acres) of tractor logging.

**Volume:** The estimated harvest volume is 5,176 tons (848 MMBF) of sawlogs.

**Estimated Return:** The minimum bid is \$22.72 per ton, which would generate approximately \$117,598 for the Common Schools Trust and approximately \$22,550 in Forest Improvement fees.

**Prescription:** This sale would utilize overstory removal, shelterwood and commercial thinning harvest prescriptions designed to enhance vigor of existing stands and to regenerate new stands of timber.

**Road Construction/Maintenance:** The Department of Natural Resources and Conservation (DNRC) is proposing 4 miles of road maintenance.

**Access:** Access to the project is obtained through cost share roads with the United States Forest Service.

**Public Comments:** No comments were received.

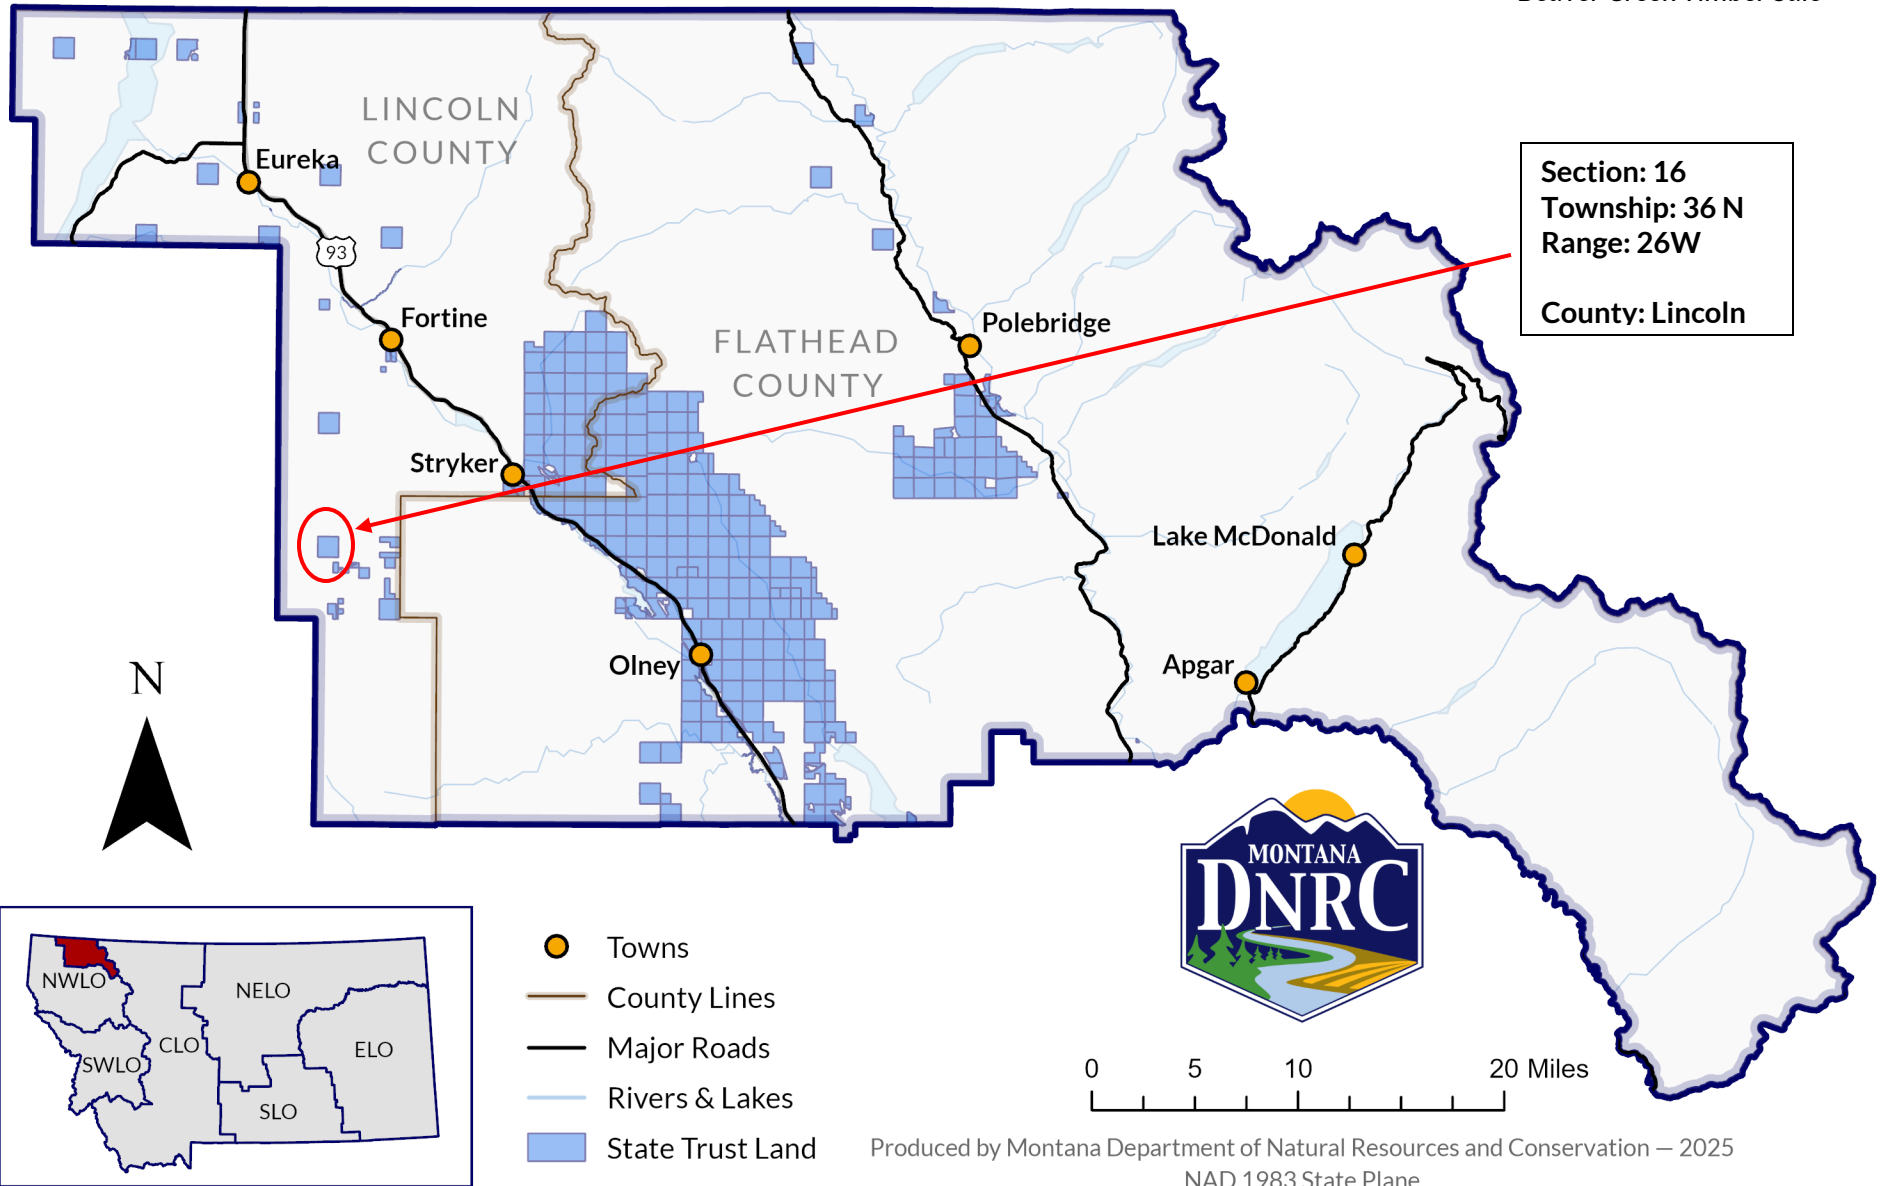

**DNRC Recommendation**

The DNRC recommends the Land Board direct the DNRC to sell the Beaver Creek Timber Sale.

CABIN AND HOME SITES

SET MINIMUM BID FOR SALE

A. Missoula County

B. Valley County

**Land Board Agenda Item  
July 21, 2025**

**0725-3A Cabin and Home Sites: Set Minimum Bid for Sale**

**Location: Missoula County**

**Trust Beneficiaries: MSU 2<sup>nd</sup>**

**Trust Revenue: \$120,000**

**Item Summary:**

The Department of Natural Resources and Conservation (DNRC) is requesting to set minimum bid for one (1) cabin site nominated for sale in Missoula County. This site was nominated by the lessee in conjunction with the 2024-2025 Cabin and Home Site Sales Program.

Sale No.	Acres	Legal Description	Nominator	Trust
2068	1.278 ±	Lot 26, Clearwater East Shore Inland COS 6114 T16N R15W Section 10	Nicholas & Natasha LaCasse and Jason & Michele Poston	MSU 2 <sup>nd</sup>

This parcel is currently leased as a cabin site and produces below average income for residential leases statewide.

**Background:**

Preliminary Land Board approval was granted in May of 2024 (Approved 5-0) for the site to be included as part of the 2024-2025 Cabin and Home Site Sales Program.

**Cultural/Paleontological Resources:**

Home sites typically contain numerous privately owned structures and the ground surfaces within most home sites have been extensively disturbed over the course of many years of occupation and development.

For State Antiquities Act compliance, a Class I (literature review) level review was conducted by the DNRC staff archaeologist for the area of potential effect (APE). This entailed inspection of project maps, DNRC's sites/site leads database, land use records, General Land Office Survey Plats, and control cards. The Class I search results revealed that no cultural or paleontological resources have been identified in the APE of each homesite boundary. It should be noted that previous Class III level inventories have been conducted in or around many of the tracts proposed for sale. These sales will have no effect to state-owned heritage properties, and no additional archaeological investigative work will be conducted.

**Access/Recreational Use:**

As part of the cabin site sale process, the State will convey any access that it has and can be conveyed to the purchaser of the cabin or home site property. Current cabin/home site access is limited to the lessee and does not provide access or recreational use to the general public. State lands classified as cabin or home sites are closed to general recreational use by the public in accordance with ARM 36.25.150(1)(a). Therefore, the State is not selling land under

the cabin site sale program that the public is permitted to use for recreation. Rather, the funds generated by these sales will go towards purchasing new lands that will have dedicated public access and recreational opportunities.

### Economic Analysis:

Short term – The average rate of return on this sale parcel is 1.661%. The parcel will continue to receive this return if it remains in state ownership. The income rate of return will likely grow smaller over the next 20 years, as average annual value appreciation is greater than the annual rent increase, as shown in Figure 1 below.

**Figure 1: Sale 2068-Review of Past Incomes and Values; Forecast Income & Values:**

Long term – The funds from the sale of this parcel would be combined with other sale funds to purchase replacement lands through DNRC's Land Banking program. Lands purchased are required to have an equal or greater rate of return than the combined lands that generated the sale funds used for the purchase. To date, the average annual rate of return on acquisitions has been 3.17% on acquisitions with income generated from annual lease payments. However, the rates of return on land acquired more recently have been higher at 3.42% for lands acquired within the last ten years. Figure 2 shows hypothetical lot values derived from the 3-year average net revenue of the current lease, at a sample range of income rates of return that could be anticipated when the sale proceeds are used for a land banking acquisition.

**Figure 2: Lot Values derived from 3-year Average Net Income at a Sample Rate of Return:**

Sale Number		Rate of Return at Current Appraised Value for Land	Average Rate of Return on all Land Banking Acquisitions	Average Rate of Return on Land Banking Acquisitions in the last 10 years
	Income Rate of Return	1.661%	3.17%	3.42%
2068	Derived Lot Value	\$120,000	\$62,890	\$58,293

**Appraised Values of Land and Improvements:**

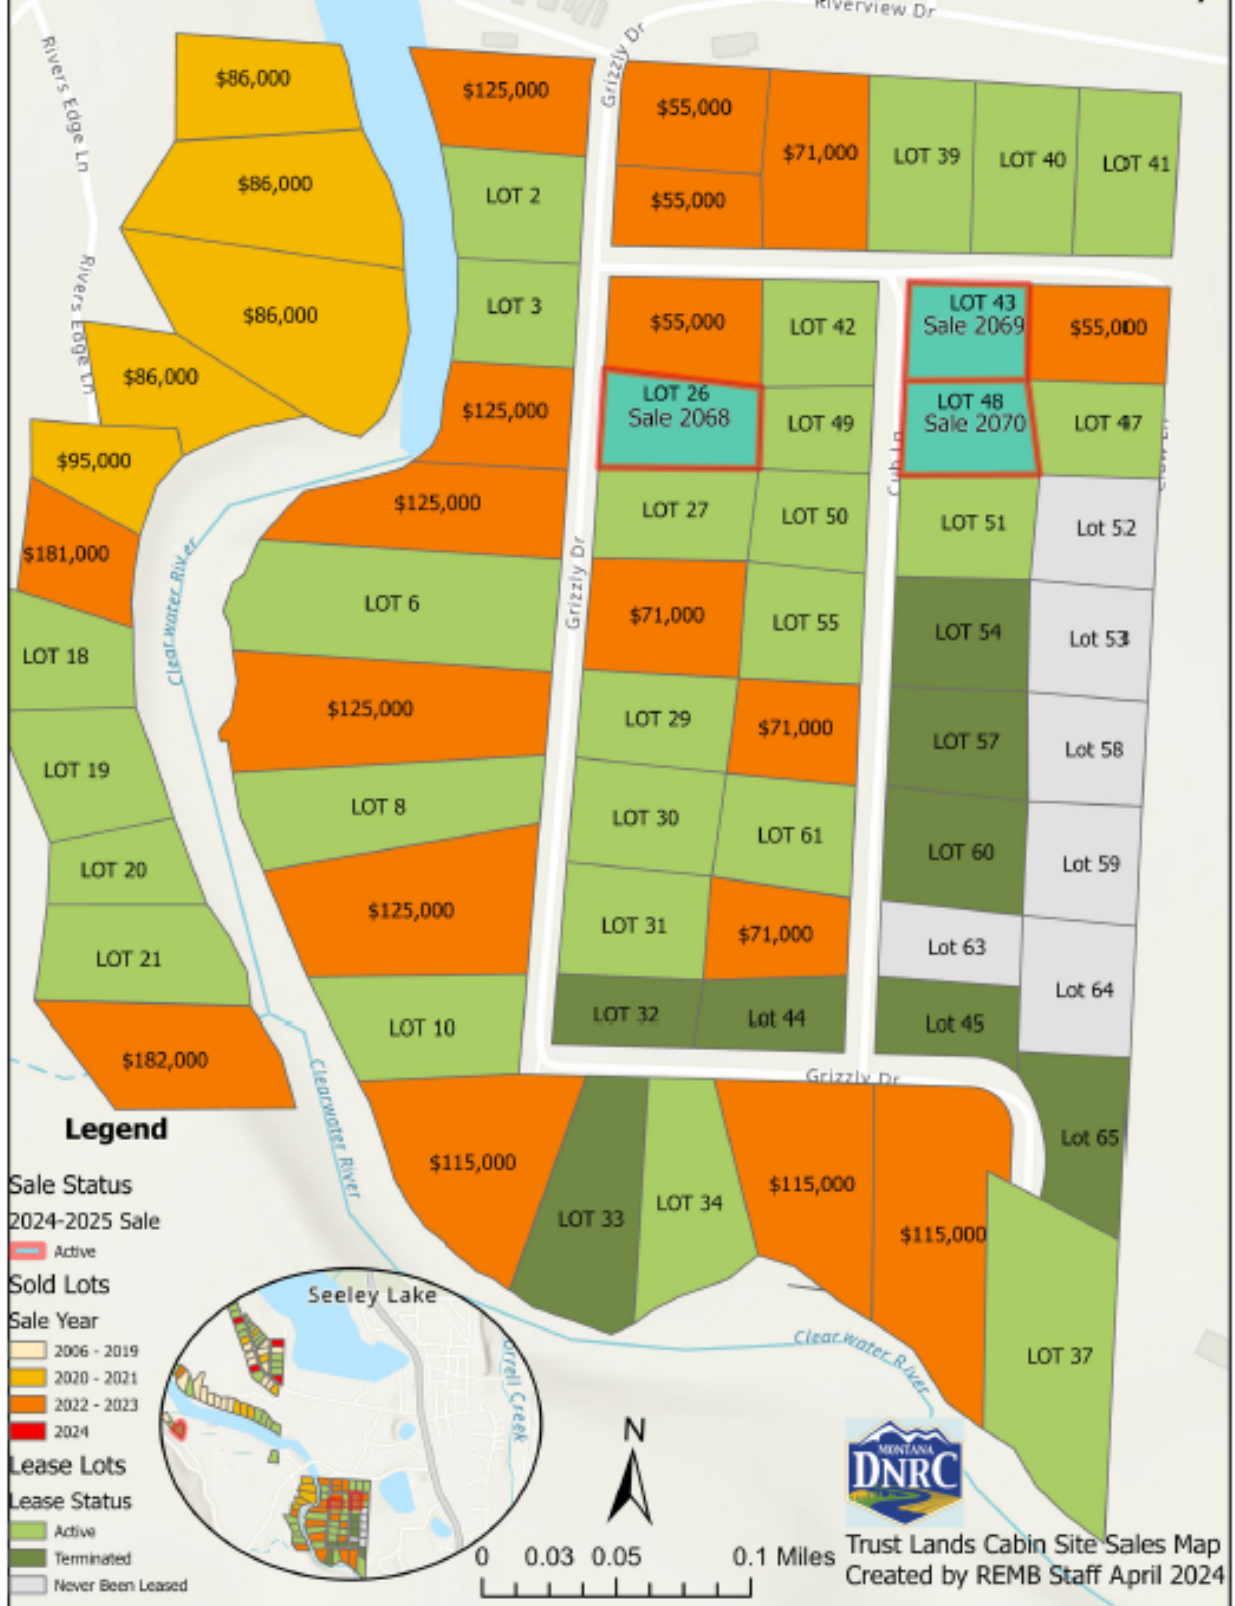

The appraisal was prepared by Montana General Certified Appraiser Nicholas J. Hogan, MAI of Hogan Real Estate Appraisal Group, LLC in Missoula, Montana.

Sale No.	Appraised Land Value	Appraised Improvements Value
2068	\$120,000	\$155,000

**DNRC Recommendation:**

The DNRC recommends that the Land Board set the minimum bid for this cabin site at the appraised land value and the maximum value of compensation for the improvements shown above.

**0725-5 Approval to File Objections on Water Rights**

**Location: Powell and Deer Lodge County**

**Trust Beneficiaries: Common Schools**

**Trust Revenue: N/A**

**Item Summary:**

In the examination of Basin 76G, during the Montana water adjudication process, the DNRC identified 18 statements of claim with at least one point of diversion located off of State Trust Lands and at least one place of use on State Trust Lands. The State Board of Land Commissioners is not currently listed as an owner or co-owner on these water rights, even though it appears that a portion of each water right is appurtenant to State Trust Lands.

A table summarizing the claims grouped by claim type, owner, land description, and supplemental rights is attached.

Pursuant to MCA 2-3-203(4), the board may go into closed session to discuss litigation strategy in relation to these statements of claim.

**DNRC Recommendation:**

The DNRC recommends approval to file these objections through the water court.

INFORMATIONAL ITEM

RESPONSE TO PUBLIC INQUIRY

**Land Board Agenda Item  
July 21, 2025**

**0725-6 Informational Item – Response to Public Inquiry (Executive Session)**

**Location: N/A**

**Trust Beneficiaries: N/A**

**Trust Revenue: N/A**

**Background:**

At the Land Board meeting on June 15, 2025, the Senior Ag Water Rights Alliance (SAWRA) claimed that the Department of Natural Resources and Conservation (DNRC) was not following a motion the Land Board passed in May 2024. At the Governor Gianforte's request, SAWRA sent the Land Board a list of cases that they believed to be affected by the motion.

**Motion:**

The May 20, 2024, motion requires Land Board approval for a complaint, answer, or objection filed by the DNRC: 1) after May 20, 2024; and 2) that asserts a state ownership in a water right with a point of diversion (POD) on private land and a place of use (POU) on state trust land.

**Analysis:**

DNRC reviewed the list and found that the objections for the Water Court cases SAWRA provided were filed before the May 20, 2024, motion. This means those cases did not require Land Board approval.

SAWRA's list also included four objections to "livestock direct from source" water rights. These are claims where livestock drink water directly from a source, and both the POD and POU are at the same location, i.e., the physical location of the livestock when drinking directly from source.

- DNRC filed objections to these water rights after the May 20, 2024, motion.
- For two of these claims (Statement of Claim 41J 30135969 and 41J 30136117), all PODs and POUs are on state trust land, not private land: the motion does not apply.
- The other two cases (Statement of Claim 41J 30135075 and 41J 30129421) involve both private and state trust land. However, the PODs on private land are not associated with the POUs on state trust land. Accordingly, DNRC did not seek Land Board approval.

**Conclusion:**

DNRC is following the Land Board's motion. None of the cases listed by SAWRA required Land Board approval under the motion, because they were either filed before the motion or did not meet the motion's criteria. If the Board chose to amend the May 2024 motion to include approval for objections to "livestock direct from source" water rights, it would substantially increase the number of objections and the workload before the Land Board.
