The water right cases listed below include all water right litigation to which the Montana State Board of Land Commissioners (MBLC) is a party. Ownership objections to water rights with point(s) of diversion (POD) on private land and place(s) of use (POU) on state trust land are identified as: **Ownership (POD on private land/POU on state trust land)**.

New cases consolidated since June 16, 2025:

CASE 43QJ-0121-R-2025

- Claimant: B&E Pinkerton LLC
- Objector: MBLC
- Issue: MBLC objected to Claim No. 43QJ 30143660 on March 24, 2025. This claim is for livestock direct from source with POD 1 and POU 1 on state trust land. The objection maintains that the state trust land should not be included because there is no water source on the state trust land and requests refinement to remove the state trust land.
- Current Status: The Water Court recently set a December 3, 2025, settlement deadline.

CASE 41J-0007-I-2025

- Claimant: Dana Ranch Co. Inc.
- Objector: MBLC
- Issue: The Water Court consolidated MBLC's objections to Claim Nos. 41J 30135969 and 41J 30136117 on March 10, 2025. Both claims are for livestock direct from source with all PODs and POU on state trust land.
- Current Status: The Water Court recently set a January 9, 2026, settlement deadline.

CASE 41J-0008-I-2025

- Claimant: Galt Ranch LP
- Objector: MBLC
- Issue: MBLC objected to Claim No. 41J 30134505 on March 10, 2025. This claim is for livestock direct from source with POU 6, POD 6, and the water source located on state trust land.¹ Water is not diverted from a POD on private land for a POU on state trust land. The objection requests that the Water Court create an implied right for the MBLC with POD 6 and POU 6 on the state trust land.
- Current Status: The Water Court recently set a January 9, 2026, settlement deadline.

CASE 41J-0010-I-2025

- Claimant: Sieben Livestock Co.
- Objector: MBLC
- Notice of Intent to Appear: US DOI BLM
- Issue: The Water Court consolidated MBLC's objections to Claim Nos. 41J 30129340, 41J 30129384, and 41J 30129421 on March 10, 2025. All three claims are for livestock direct from source with one or more PODs, POUs, and sources located on state trust land. Water is not diverted from a POD on private land for any of the POUs on state trust land. The objections request that the Water Court create implied rights for the MBLC with PODs and POUs on the state trust land.
- Current Status: The Water Court recently set a November 7, 2025, settlement deadline.

CASE 41J-0009-I-2025

- Claimant: Springdale Colony
- Objector: MBLC
- Issue: MBLC objected to Claim No. 41J 30135075 on March 10, 2025. This claim is for livestock direct from source with POD5, POU 5, and the source located on state trust land. Water is not diverted from a POD on private land for a POU on state trust land. The objection requests that the Water Court create an implied right for the MBLC with POD 5 and POU 5 on the state trust land.
- Current Status: The Water Court recently set a February 20, 2026, settlement deadline.

¹ For a livestock direct from source claim, the POU on state trust land is associated with a POD on state trust land. The POD on private land is not associated with the POU on state trust land. When an implied claim is created, the POD and POU for the water right will be entirely located on state trust land. Accordingly, a livestock direct from source objection is not subject to the MBLC motion requiring prior approval because it does not assert a state ownership interest in a water right with a point of diversion on private land and a place of use on state trust land.

CASE 43QJ-0125-R-2025

- Claimant: Kennedy Properties LLC
- Objector: MBLC
- Issue:
MBLC objected to Claim No. 43QJ 197394-00 on March 24, 2025. **Ownership (POD on private land/POU on state trust land)**. The claim is for sprinkler/flood irrigation diverted by pump with a POD off state trust land and one POU on state trust land. The MBLC approved this objection before it was filed.
MBLC objected to Claim No. 43QJ 197424-00 on March 24, 2025. This claim is for livestock direct from source with POD 1, POU 1, and the source located on state trust land. Water is not diverted from a POD on private land for POU 1 on state trust land. The objection requests that the Water Court create an implied right for the MBLC for POD 1 and POU 1 on the state trust land.
- Current Status: On October 6, 2025, MBLC filed a response to the court's show cause order and a request to set aside default.

CASE 41S-2087-R-2025

- Claimant: Montana Holdings, Inc.
- Objector: MBLC
- Issue: MBLC objected to Claim No. 41S 101545-00 on September 23, 2022. This claim is for groundwater diverted by a well with the POD and POU on state trust land. MBLC owns Claim No. 41S 21653-00 for this tract of state trust land. Accordingly, the objection seeks to have Claim No. 41S 101545-00 dismissed as redundant. This objection predates the MBLC motion requiring prior approval.
- Current Status: A status conference is scheduled for October 16, 2025.

CASE 41S-2088-R-2025

- Claimants: Amanda A. Peck; Robert W. Peck; MBLC
- Objector: MBLC
- Issue: MBLC filed a self-objection to Claim No. 41S 101592-00 on September 23, 2022. This claim is for sprinkler/flood irrigation diverted by pump. The objection seeks to amend the maximum acres and flow rate for the water right. This objection predates the MBLC motion requiring prior approval.
- Current Status: A status conference is scheduled for October 16, 2025.

CASE 41S-2136-R-2025

This objection predates the MBLC motion requiring prior approval.
- Current Status: A status conference is scheduled for October 16, 2025.

CASE 41S-2127-R-2025

- Claimant: Spring Creek Hutterian Society
- Objector: MBLC
- Issue: MBLC objected to Claim No. 41S 139550-00 on September 23, 2022. This claim is for irrigation diverted by headgate POD on private land and POU 9 claims 14 acres of irrigation on state trust land. The objection requests either coownership or creation of an implied claim for POU 9. This objection predates the MBLC motion requiring prior approval.
- Current Status: A status conference is scheduled for October 23, 2025.

Water is not diverted from a POD on private land for a POU on state trust land. The objection requests that the Water Court create an implied right for the MBLC with POD 4 and POD 4 on the state trust land. This objection predates the MBLC motion requiring prior approval.
- Current Status: The Water Court recently set a November 5, 2025, settlement deadline.

- Claimant: MBLC
- Objector: FWP
- Issue: MBLC objected to Claim No. 41S 21699-00 on April 17, 2023. FWP seeks co-ownership of water right because place of use extends onto FWP land.
- Current Status: The Water Court recently set a December 26, 2025, settlement deadline.

CASE 43QJ-0250-R-2025

- Claimant: MBLC
- Objector: MBLC
- Issue: MBLC filed a self-objection to Claim Nos. 43QJ 47490-00 and 43QJ 30106803 on March 24, 2025. The objections ask the Water Court to correct legal land description errors.
- Current Status: The Water Court has not yet issued any orders in this case.
