Item #	Stakeholder Feedback	Solution	Status	Category	Completion/Anticipated Date
1	Add definitions to the about page - Data Dictionary/Definition of Terms	Identify and detail definitions to include on About Page detailing terms of statuses, types, etc for elements referenced in the WRQS. Example: 'Operating Authority Date'. Possibly post the same document to the Water Rights portion of the WRD website.	In development	WRQS	8/1/24
2	Show & Filter by Decree Status of Basin in Results Table	Adding a Column of Decree Status to Results Table to enable filtering	In development	WRQS	8/10/24
3	Show if claim is in a case, add Water Court Case Number, & Case Status	Adding fields identifying if a claim is in a case, the Water Court Case Number, & Case Status	In development	WRQS	8/10/24
4	Identify coordinates of Water Rights from WRQS Map	Add Coordinates Widget to WRQS Map	In development	WRQS	8/20/24
5	Slow abstract speed	Tune Reporting Server that generates general abstracts	In development	WRQS	TBD
6	Include historic imagery (1979 & others from MT DNRC)	Rebuilding Image Services - known issues at present.	In development	WRQS	TBD
7	Enable Cumulative Export of Search Results including Results Table, Other Versions, Points of Diversion	Application Limitation - working with software platform provider to enable solution.	Implementing Not Yet Scheduled	WRQS	TBD
8	Water Right Type codes that aren't water right types should be removed	62-73 Groundwater, Irrigation District, Exempt Notice (627). Perhaps refer to as 'Other' water right record.	Implementing Not Yet Scheduled	WRQS	TBD
9	Include type of water right claim	WRQS Working Group Session attendees noted this. Want to know the type of right for decree purposes (historical type of right). Field is Historical Right type in the WRIS database. Add to the results table and WRQS feature classes/tables where appropriate.	Implementing Not Yet Scheduled	WRQS	TBD
10	Metadata on imagery available from the WRQS	Identify the date the photo was obtained.	Implementing Not Yet Scheduled	WRQS	TBD
11	Select multiple water right statuses in the Status picker at the same time in the simple/advanced search frames	Enable multiple selection of water right statuses in the dropdown.	Implementing Not Yet Scheduled	WRQS	TBD
12	Township/RangeSection broken into multiple columns.	Create columns for Township, Range, Section, Quarter section in the WRQS attribute tables.	Implementing Not Yet Scheduled	WRQS	TBD
13	Enter multiple water right numbers on the Simple Search tab	Enable entering multiple water right numbers on the Simple Search Tab	Implementing Not Yet Scheduled	WRQS	TBD
14	Issue remark Field	Need to see the issue remark field - if an issue is in place on a claim.	Implementing Not Yet Scheduled	WRQS	TBD

15	Animal units attribute	Add animal units (that apply to stock use) to the POD, POU, & Reservoir feature classes, along with any relevant tables where appropriate	Implementing Not Yet Scheduled	WRQS	TBD
16	Users can't find TRS/Legal Land Description search functionality.	Add language to the Simple Query page notifying users TRS search is available on the Advanced search page.	Implementing Not Yet Scheduled	WRQS	TBD
17	Zoom to a property or area & identify the water rights associated to that property	Show the water rights associated with a given property - would have to rely on geocodes and relate water right information from the parcel.	Needs More Discussion	WRQS	TBD
18	Dropdown Detailing List of Compacts by Name	Create dropdown listing compacts by name on the Advanced Search tab. The WRD_COMPACTS table exists in the WRIS database, so a dropdown on the Advanced Page is possible.	Needs More Discussion	WRQS	TBD
19	Red language that sometimes appears at the top of abstracts indicating there may be a newer operating authority date/version is sometimes inaccurate. 'A version with a more recent operating authority date exists. Contact DNRC for details.' Attendees stressed this language is not accurate. Language needs to be consistent	Adjust language and understand the logic used to print the red language to ensure when present it's accurate. <b>Requires no legislation.</b>	Considering Feedback	Abstract	TBD
20	DNRC should consider using operating authority date as the default date in the upper left-hand corner of an abstract instead of the current date. This would help identify the most recent version of an abstract.	<b>Requires no legislation.</b>	Considering Feedback	Abstract	TBD
21	Items missing from General Abstracts: indicate what the end date is if there is an authorization for a temporary change. Project completion notice deadline date would be helpful and help determine whether the water right has been completed/verified.	<b>Requires no legislation.</b>	Considering Feedback	Abstract	TBD
22	When a General Abstract is produced, are users seeing all remarks?	<b>Requires no legislation.</b>	Considering Feedback	Abstract	TBD

23	Query system defaults to changed version of the claim: have an abstract come up, but not see another version of the abstract. Legal land descriptions differ between changes. 'Active version' should default to the most recent version of the right, even if there is a change that is an earlier version, to capture the most recent activity of the water court.	<b>Requires no legislation.</b>	Considering Feedback	Abstract	TBD
24	Put a date next to change authorization or version. Needs to default to the changed version of the claim - show the most recent activity.	<b>Requires no legislation.</b>	Considering Feedback	Abstract	TBD
