OWNING PROPERTY IN FLOODPLAINS

100 year or 1%-ANNUAL-CHANCE-FLOODPLAIN

A 1-percent-annual-chance floodplain is an area that has a 1-percent chance of flood events in any given year. It is the basis for flood insurance requirements and local floodplain management regulations. It is considered to have a **HIGH** flood risk. **The 1% Annual Chance Flood is also referred to as a 100-Year Flood or a Base Flood.**

| Development Regulations | Insurance Requirements |
|---|---|
| Gallatin County , and the City of Three Forks require a floodplain development permit for construction in the 1%- Annual Chance floodplain to protect human life and property. | Lenders will typically reevaluate their loans to reassess flood risk when a new map goes effective. If you own a building in a high risk flood area and have a federally backed loan, your lender will require you to have flood insurance, because the flood maps indicate a high flood risk. |
| A floodplain permit is required for new buildings and improvements to existing buildings. | |
| To meet local floodplain regulations, the lowest floor of new homes must be 2 feet above the height of the base flood (known as the Base Flood Elevation). | FEMA's new rating methodology, Risk Rating 2.0, considers specific characteristics of a building to provide a more modern, individualized, and equitable flood insurance rate: |
| If improving an existing building will cost more than 50 percent of the building's market value (known as "substantial improvement"), you must make the entire structure comply with current floodplain regulations. Other Federal, State, and local regulations may also | WHERE It Is Built (Property Address) |
| apply. | HOW It Is Built (Building Characteristics) |
| 1-Percent-Annual-Chance Floodplain Floodway Fringe Base Reed Devation (BFD) | WHAT Is Built and Covered (Replacement Cost and Coverage)If you own a building in the 1%- Annual-Chance-Floodplain, contact your insurance agent about flood insurance . |
