

PLACE OF STORAGE ADDENDUM

Complete this addendum one time for each place of storage and attach the required information. **Note:** A place of storage does not include reservoirs, pits, pit-dams, or ponds with a capacity **less than** 0.1 AF (32,585.1 gallons), water tanks, or cisterns (ARM 36.12.113(6)).

1. **Means of diversion:** Does the place of storage also serve as the primary means of diversion for the associated Form 602I/602 filing? ☐ Yes ☐ No
2. **Purpose of storage:** How much water is stored/will be stored, and for what purpose(s) are you storing water? Include an amount of water in acre-feet (AF) and explanation for each purpose described. *Please do not include evaporative losses, as they are quantified separately in question 4. Purposes identified must also be reflected on the associated Form 602I/602 filing.*

3. **Place of storage dimensions:** Provide reservoir dimensions.

- a. Reservoir Surface Area: Length x Width _____ sq. ft. -OR- Acres _____
- b. Reservoir Depth: Maximum Depth _____ ft. -OR- Average Depth _____ ft.

4. **Evaporation calculation:** Do you propose to apply DNRC Evaporation Standards for the reservoir pursuant to ARM 36.12.116(1)? A map layer showing location-based net evaporation data is available from DNRC upon request. **If no, attach evaporation calculations and justification and label as Place of Storage: Attachment #4.**

☐ Yes ☐ No, document(s) attached

5. **Existing place of storage:** Is this reservoir associated with other existing water rights or authorized Notices of Intent to Appropriate Groundwater? ☐ Yes ☐ No
 - a. **If yes,** list all water right numbers and authorized Notices of Intent to Appropriate Groundwater associated with the existing reservoir.
