## **FINAL DECREE OF WATER RIGHTS FOR MILK RIVER ABOVE FRESNO RESERVOIR BASIN 40F**

### **INTRODUCTION**

This order is a Final Decree of existing water rights for Basin 40F, which covers the Milk River and its tributaries above Fresno Reservoir. The area encompassed by this decree has been designated as Basin 40F.

### **I. FINDINGS OF FACT**

1. Basin 40F is the uppermost portion of the Milk River drainage in Montana. The basin covers the area upstream from Fresno Dam in Hill County to the headwaters. The northern boundary of the basin is the international boundary with Canada. A segment of the Milk River flows into Canada in Glacier County and returns to the United States in Hill County. The upper portion of the basin is located within the Blackfeet Indian Reservation and a small portion of Glacier National Park. A map generally depicting Basin 40F is attached as Exhibit A.

2. This Final Decree is part of a general adjudication of water rights in Montana. The Montana Legislature enacted the Water Use Act, as subsequently amended, to authorize the creation of the Montana Water Court and to provide for a statewide adjudication of existing rights. The United States Congress enacted the McCarran Amendment, 43 U.S.C. § 666, to allow joinder of the United States in any suit “for the adjudication of rights to the use of water of a river system....” 43 U.S.C. § 666(a)(1).

3. The Montana Attorney General filed a petition requesting an order from the Montana Supreme Court requiring owners of existing water rights to file claims for their

water. The Supreme Court issued an order requiring such owners, including the United States of America on its own behalf or as trustee for any Indian or Indian Tribe, to file claims for rights to the use of water arising prior to July 1, 1973.

4. The Montana Supreme Court provided notice pursuant to Section 85-2-213(1)-(4), MCA, which required the order be:

(1) “[P]laced in a prominent and conspicuous place in all daily newspapers of the state and in at least one newspaper published in each county of the state within 30 days” of issuance of the order.

(2) “[P]laced in a prominent and conspicuous location in each county courthouse in the state within 30 days” of issuance of the order.

(3) Provided in written form “to the press services with offices located in Helena within 30 days” of issuance of the order.

(4) Served upon “the United States attorney general or the attorney general’s designated representative.”

5. The Water Use Act also authorized the Montana Supreme Court to “give notice of the order in any other manner that will carry out the purposes of this section.” Section 85-2-213(5), MCA.

6. The Montana Supreme Court established a claim filing deadline of April 30, 1982.<sup>1</sup> Claims for stock and individual as opposed to municipal domestic uses based upon instream flow or ground water sources were exempt from the filing requirement, although some claims for these types of rights were filed.

7. The Montana Legislature subsequently allowed for remission of forfeiture of certain claims not filed by the April 30, 1982 deadline. Section 85-2-221(3), MCA. The deadline for filing these claims was July 1, 1996. The legislature also created a filing deadline for stock and individual as opposed to municipal domestic use claims based upon instream flow or ground water sources. The filing deadline for these claims was June 30, 2019. Section 85-2-222(2)(a), MCA.

8. The United States filed claims for water rights in Basin 40F on behalf of the Blackfeet Tribe as part of Montana’s general adjudication of water rights. The

adjudication of the Blackfeet Tribal claims was stayed to permit negotiations with the Montana Reserved Compact Commission. These negotiations resulted in an agreement titled the Blackfeet-Montana-United States Compact, (“Blackfeet Compact”). The 2009 Montana Legislature ratified the Blackfeet Compact. 2009 Mont. Laws ch. 204 (codified at Section 85-20-1501, MCA).

9. Following ratification by the Montana Legislature, the United States Congress, and the Blackfeet Tribe, the water rights described in the Blackfeet Compact were incorporated into a Preliminary Decree issued by the Water Court on February 28, 2019. The Water Court completed all preliminary decree proceedings required by the Water Use Act and approved the Blackfeet Compact in December 9, 2020. The Water Court then issued an M.R.Civ.P. Rule 54(b) certification and final judgment on January 15, 2021. Case WC-0006-C-2018. A copy of the Blackfeet Compact is attached to this Order as Exhibit B and is incorporated without alteration. The water rights approved in the Blackfeet Compact are defined by the terms of the Blackfeet Compact, which were not incorporated into Court-approved water right abstracts.

10. In addition to the water rights confirmed in the order approving the Blackfeet Compact, this Final Decree also includes water rights in Basin 40F identified in the Blackfeet Tribe’s Off-Reservation Instream Reserved Water Rights Preliminary Decree, issued by the Water Court on April 4, 2019. This Preliminary Decree included reserved water rights addressed in a “Stipulation to Address Claims by and for the Benefit of the Blackfeet Indian Tribe to Water Rights Within the Lewis and Clark National Forest and Glacier National Park” (“Stipulation”) between the Blackfeet Tribe, the United States Bureau of Indian Affairs as trustee for the Blackfeet Tribe, the United States National Park Service, and the United States Forest Service. On August 23, 2021, The Water Court entered a “Final Order on the Blackfeet Tribe Off-Reservation Instream Water Rights (“Off-Reservation Final Order”). Case WC-0001-C-1991. The Off-Reservation Final Order approved the Stipulation, and included a Rule 54(b) certification and final judgment. Abstracts for those water rights described in the Off-Reservation Final Order

within Basin 40F are included in the water right abstracts incorporated into this Final Decree with no alteration as to their substantive elements.

11. This Final Decree also includes some of the water rights addressed in the United States Park Service-Montana Compact (“Park Service Compact”) (codified at Section 85-20-401, MCA). The Water Court issued a Preliminary Decree for the Park Service Compact on Water Court on December 10, 1997. The Court approved the Park Service Compact on April 11, 2005 and issued a Rule 54(b) certification and final judgment on June 11, 2018. Case WC-1994-01. Abstracts for the Basin 40F federal reserved rights quantified in the Park Service Compact are included with this Order with no alteration as to their substantive elements.

12. Before issuing this Final Decree, the Water Court issued a Preliminary Decree in Basin 40F on December 12, 2013, and an Interlocutory Decree in Basin 40F on July 13, 2022.

13. The Water Court provided water users and other interested parties with notice of prior decrees in Basin 40F as follows:<sup>2</sup>

(1) The Court sent a copy of each decree to the Department of Natural Resources and Conservation (DNRC).

(2) The Court served notice of the availability of each decree by mail on each person who filed a claim for an existing right in Basin 40F, or their successor as documented by DNRC records.

(3) The Court served notice of the availability of each decree by mail on each purchaser under contract for deed, as defined in Section 70-20-115, MCA, of property in connection with which a claim of existing right was filed in Basin 40F.

(4) The Court served notice of the availability of each decree by mail on those issued or having applied for and not having been denied a permit to beneficially use water within Basin 40F pursuant to Title 85, chapter 2, part 3.

(5) Notice of the availability of each decree was served by mail on those granted a reservation within Basin 40F pursuant to Section 85-2-316, MCA.

(6) Notice of the availability of each decree was provided to other interested persons who requested notice from the water judge.

---

<sup>2</sup> The only exception is the Blackfeet Tribe’s Off-Reservation Instream Reserved Water Rights Preliminary Decree. The United States was Ordered to serve notice and publish notice of the Blackfeet Tribe’s Off-Reservation Instream Reserved Water Rights Preliminary Decree. WC-0001-C-1991, Doc. 103.00. The United States satisfied this obligation.

(7) Notice of each decree was also published once each week for three consecutive weeks in at least three newspapers of general circulation that covered the water division in which Basin 40F is located.

14. Following notice of the issuance of the decrees for existing water rights in Basin 40F, the Water Court provided opportunities to file objections and notices of intent to water users and other interested parties. Many of the water rights identified in Basin 40F were consolidated into cases and modified, terminated, or left intact after resolution of issue remarks or objections. Other claims were adjudicated individually without being made part of a case and records of those proceedings exist within claim files. Records from those proceedings are contained in the Court's case files and in claim files.

15. The Water Court resolved all objections and notices of intent to appear by various means including trials, settlements, and withdrawals. The Water Court also resolved issue remarks and counterobjections. The bases for resolution are set forth in various orders for cases consolidated in Basin 40F.

16. The water right abstracts included with this Final Decree incorporate those provisions of the Court's orders as necessary to determine each of the elements the Court is required to include in a final decree pursuant to § 85-2-234, MCA.

17. This Final Decree includes existing rights for both surface and groundwater.

14. The ownership of water rights shown in this Final Decree is based on ownership records maintained by the Department of Natural Resources and Conservation.

## **II. CONCLUSIONS OF LAW**

1. The term "existing right" or "existing water right" as used in this decree "means a right to the use of water that would be protected under the law as it existed prior to July 1, 1973. This term includes federal non-Indian and Indian reserved rights created under federal law and water rights created under state law." Section 85-2-102(13), MCA.

2. This Final Decree establishes all claims for existing water rights filed in Basin 40F pursuant to the Montana Supreme Court's Order of December 7, 1981; all

claims filed pursuant to Section 85-2-221, MCA; and all rights defined by Section 85-2-222(1), MCA and claimed pursuant to Section 85-2-222(2)(a), MCA.

3. This Final Decree establishes all existing rights in Basin 40F of any federal agency or Indian Tribe pursuant to Sections 85-2-702 and 85-2-703, MCA.

4. Ownership information on the abstracts attached to the Final Decree was updated to reflect current ownership information as of the date of the issuance of this Final Decree.

5. Section 85-2-234(4), MCA, requires that a final decree “must establish, in a form determined to be appropriate by the water judge, one or more tabulations or lists of all water rights and their relative priorities.” The term “water right” is broader than “existing water right” and “means the right to appropriate water pursuant to an existing right, a permit, a certificate of water right, a state water reservation, or a compact.” Section 85-2-102(32), MCA.

6. A tabulation of all water rights in Basin 40F is attached as Exhibit C. This tabulation includes water rights adjudicated by the Water Court in this Final Decree, permits, certificates, and state water reservations authorized or issued by the Montana Department of Natural Resources and Conservation. The tabulation also includes by reference water rights described in the Blackfeet Tribe-Montana-United States Compact, the Blackfeet Tribe’s Off-Reservation Instream Reserved Water Rights Preliminary Decree, and the National Park Service-Montana Compact.

7. Some of the water rights in the tabulation, including permits for post-July 1, 1973 water rights authorized under Section 85-2-302, MCA; authorizations for changes to water rights issued pursuant to Title 85, Chapter 2, Parts 3 and 4, certificates of water rights issued under Section 85-2-315, MCA; and state water reservations authorized under Section 85-2-316, MCA, are not within the Water Court’s jurisdiction to adjudicate existing water rights. Their inclusion in the tabulation is intended to comply with Section 85-2-234(4), MCA, and facilitate the integrated administration of water rights in Basin 40F. This Final Decree is not an adjudication of those rights.

8. Section 85-2-234(5), MCA, requires that a Final Decree must state the findings of fact, along with any conclusions of law, upon which the existing rights and priorities of each person, federal agency, and Indian Tribe named in the decree are based. The findings of fact and conclusions of law resolving cases consolidated to address water rights in this decree are included within and part of the case and claim files referenced in this paragraph and are incorporated by reference.

9. All requirements for joinder of the United States and of the United States as trustee for the Blackfeet Tribe in the adjudication of existing water rights in Basin 40F have been met.

10. The general adjudication of existing water rights by this Court was an *inter sese* determination of all claims for existing water rights in Basin 40F except for unfiled exempt rights described in Section 85-2-222(1), MCA.

### **III. JUDGMENT AND ORDER**

1. This order is a Final Decree and Judgment confirming the validity and elements of all existing water rights in Basin 40F except for unfiled exempt rights described in Section 85-2-222(1), MCA. The Final Decree incorporates water rights already addressed in the Court's approval of the Blackfeet Compact and the Off-Reservation Final Order, and the Park Service Compact. Except for unfiled exempt rights described in Section 85-2-222(1), MCA, existing water rights not recognized in this Final Decree are terminated.

2. This Final Decree supersedes all prior decrees regarding existing rights in Basin 40F except for the Blackfeet Compact, the Off-Reservation Final Order, and the Park Service Compact (collectively "the Compacts"). Reference to water rights described in the Compacts in the tabulation does not constitute an adjudication or re-adjudication of the water rights recognized in the Compacts or a modification of prior orders of this Court approving the Compacts.

3. This Final Decree does not supersede permits for post-July 1, 1973, water rights authorized under Section 85-2-302, MCA; authorizations for changes to water rights issued pursuant to Sections 85-2-302, 85-2-320, 85-2-402, 85-2-407, and 85-2-420;

certificates of water rights issued under Section 85-2-315, MCA; and state water reservations authorized under Section 85-2-316, MCA.

4. This Final Decree does not modify any orders previously made by this Court pursuant to its authority to review decisions of the Department of Natural Resources and Conservation under the Montana Administrative Procedure Act, Section 2-4-702(2)(e)(i), MCA.

5. This Final Decree includes and incorporates all abstracts of existing water rights referenced on the tabulation and issued contemporaneously with this Order. The Final Decree also includes the entirety of Exhibits A through C listed below:

|           |                                             |
|-----------|---------------------------------------------|
| Exhibit A | Basin map (for illustrative purposes only); |
| Exhibit B | Blackfeet Compact;                          |
| Exhibit C | Tabulation.                                 |

6. The Water Court retains jurisdiction to correct clerical mistakes in this decree and to review any other matters permitted by law.

7. The clerk of the Water Court is ordered to:

(1) Provide a copy of this decree to the Department of Natural Resources and Conservation, the United States, the Blackfeet Tribe, and the clerk and recorders and clerks of court of Glacier County, Toole County, Liberty County, and Hill County.

These records shall be maintained, organized, and identified in a manner that makes them searchable, reproducible, and accessible to members of the public.

(4) Arrange for and provide notice of availability of this decree in conformance with the requirements of Section 85-2-232, MCA.

8. Within ten business days of execution and filing of this decree, the Department of Natural Resources and Conservation is ordered to:

(1) Post a copy of this decree on its website in a format that can be downloaded or printed.

(2) Maintain a copy of this decree for public inspection at its field office in Havre, Montana and, its headquarters in Helena, Montana.

(3) Post final decree abstracts of the water rights in this decree on its electronic database and make those abstracts available to the public in a format that can be downloaded or printed.

(4) Retain and preserve in electronic or paper format all claim files for existing rights in Basin 40F, including the original claims and all attachments thereto; all supplemental documents filed by any party with the Department in conjunction with each claim; all correspondence to or from the Department regarding each claim; all reports and documents produced by the Department in the course of reviewing, verifying, examining, or investigating each claim; all ownership updates regarding each claim; and all documents, orders, correspondence, or other materials produced by or for the Water Court in each claim file. If the Tribe receives a good faith offer from a Person for Lease of a portion of the Tribal Water Right in Birch Creek pursuant to Article III.C.1.c to an off-Reservation point of diversion or place of use, or in the Badger Creek Drainage set forth in Article III.D.1 to an off-Reservation point of diversion or place of use, and if delivery facilities exist to otherwise allow the diversion of Badger Creek water into Birch Creek, the Tribe shall allow holders of Water

Rights Arising Under State Law using water out of Birch Creek the first opportunity to acquire use of such rights on the same terms and conditions as the good faith offer.

f. If the Tribe receives a good faith offer from a Person for Lease of a portion of the Tribal Water Right in the Cut Bank Creek Drainage set forth in Article III.E.1 to an off-Reservation point of diversion or place of use, the Tribe shall allow holders of Water Rights Arising Under State Law using water from the Cut Bank Creek Drainage the first opportunity to acquire use of such rights on the same terms and conditions as the good faith offer.

g. If the Tribe receives a good faith offer from a Person for Lease of a portion of the Tribal Water Right in the Milk River Drainage set forth in Article III.F.1 to an off-Reservation point of diversion or place of use, the Tribe shall allow holders of Water Rights Arising Under State Law using water from the Milk River Drainage the first opportunity to acquire use of such rights on the same terms and conditions as the good faith offer.

h. If the Tribe receives a good faith offer from a Person for Lease of a portion of the Tribal Water Right in the St. Mary River set forth in Article III.G to an off-Reservation point of diversion or place of use, the Tribe shall allow water users receiving water from the Milk River Project the first opportunity, and other Milk River water users the second opportunity, to acquire use of such rights on the same terms and conditions as the good faith offer.

i. Except as may be provided by Congress, the off-Reservation use of any portion of the Tribal Water Right set forth in Article III.C.1.b, III.D.1, III.E.1 or III.F.1 is limited to a place of use within the Missouri River Basin.

j. No Lease of any portion of the Tribal Water Right may permanently alienate the water right.

k. The Tribe or any Person using diversion or transportation facilities located off the Reservation in connection with a use of the Tribal Water Right shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water, prior to exercising a use of the Tribal Water Right off the Reservation.

3. Special Rules for Changes in Use of the Birch Creek Water Right Set Forth in Article III.C.1.a.

a. Change in Place of Use. The Tribe may change or authorize a change in the place of use of the water right set forth in Article III.C.1.a only if:

i. the proposed change in place of use is to the Badger-Fisher Unit of the Blackfeet Irrigation Project, or to other areas of the Birch Creek Drainage served by water out of the Badger Creek Drainage; and

ii. there is a need for irrigation water beyond available supplies in those areas due to constraints imposed on the Badger-Fisher Unit by the physical availability of water other than as a result of Leases, a failure of delivery capabilities, or significant adverse environmental impacts of continued delivery of Badger Creek water due to degraded delivery systems or otherwise; and

iii. total annual diversions to the Badger-Fisher Unit pursuant to the water right set forth in Article III.C.1.a do not exceed the volume of water needed to supply 75% of the net irrigation requirement for a crop mix of 75% alfalfa and 25% small grains delivered at 50% efficiency for 6000 acres, and the flow rate of the right set forth in Article III.C.1.a for use in the Upper Birch Creek Drainage

is reduced by the flow rate of water being diverted for use in the Badger-Fisher Unit.

b. Change in Purpose of Use. The Tribe may change or authorize a change in the purpose of use of the water right set forth in Article III.C.1.a up to a maximum of 6250 AFY. The relationship between the quantity and flow rate of water proposed for change and the quantity of water available for irrigation pursuant to the water right set forth in Article III.C.1 shall be determined by the following formula:

The volume of water proposed to be changed will be divided by 50% to determine the diverted volume of the Tribal change. This diverted volume of the Tribal change is subtracted from the modeled average diversion volume (12,500 acre-feet) to determine the changed average diversion volume. The new irrigation diversion flow rate is established by dividing the changed average diversion volume by the modeled diversion volume and multiplying this quotient by the flow rate set forth in Article III.C.1.a (100 Cfs). Several example scenarios are shown in Appendix 4.

4. Development of the Tribe's St. Mary River Right Set Forth in Article III.G.1.a.i. As directed by Congress, and after appropriate investigation and study, the Parties shall identify and the United States shall provide the Tribe, from Available St. Mary River Water, and/or from any other source mutually agreed to by the Parties, sufficient water to fulfill the Tribe's water right set forth in Article III.G.1.a.i. The fulfillment of the Tribe's water right set forth in Article III.G.1.a.i, pursuant to this subsection, from any water subject to the Milk River Project Water Right may occur only in a manner that causes no injury to the Milk River Project and shall not require current or future Milk River Project water users or their contracting entity or entities to subsidize or pay for any costs required to develop or fulfill the water right set forth in Article III.G.1.a.i. The use of the Tribe's water right set forth in Article III.G.1.a.i, or of any portion of that right, shall commence only after the Parties have mutually agreed in writing that water has been identified and is available to fulfill that right or any portion of it consistent with the terms of this Compact.

E. Subsequent Federal or State Law. Administration under Article IV.C.2 and Article IV.F.1 shall be as set forth in this Compact except as may otherwise be determined by a court of competent jurisdiction or established by Congress.

F. Water Rights Arising Under State Law: Administration.

1. The State shall administer and enforce all Water Rights Arising Under State Law to the use of Natural Flows and Ground Water within and outside the Reservation. The State shall have the final and exclusive jurisdiction to resolve all disputes between holders of Water Rights Arising Under State Law.

2. The State shall not administer or enforce any part of the Tribal Water Right within the Reservation.

G. Water Rights Arising Under State Law: New Uses or Change in Use.

1. Limit on New Uses. DNRC shall not process or grant an application for an appropriation within those portions of the Basins closed pursuant to Article III.J received after the ratification of this Compact by the Montana legislature becomes effective, provided that, DNRC may process applications and issue certificates of water right or permits for use on fee land of those uses excepted from the closures as set forth in Article III.J until such time as the Secretary approves an amended tribal water code promulgated pursuant to the provisions of Article IV.C. After approval of the amended water code by the Secretary,

filings for Excepted Rights shall be processed pursuant to the provisions of Article IV.C.3.

2. Change in Use of Water Rights Arising Under State Law within the Reservation. The State may authorize a Change in Use of a Water Right Arising Under State Law within the Reservation in accordance with State law. DNRC shall provide timely notice to the Tribe of every application for change.

DNRC may designate or modify a controlled Ground Water area adjacent to the Reservation pursuant to applicable State law. DNRC may manage a permanent or temporary controlled Ground Water area adjacent to the Reservation in cooperation with BWRD.

I. Information Sharing.

1. Within one year after a hydrologic basin subject to this Compact is finally decreed by the Montana Water Court, the DNRC shall provide the BWRD and the United States with a report listing all decreed Water Rights Arising Under State Law within that hydrologic basin.

2. Within one year after the date the ratification of this Compact by the Montana legislature becomes effective, the DNRC shall provide the BWRD and the United States with a report listing all uses pursuant to permits and water reservations, and those uses excepted from the permitting requirements of State law to the extent that the DNRC has such information.

3. Within one year after the ratification of this Compact by the Montana legislature becomes effective, the BWRD and the United States shall provide the DNRC with a report listing all Existing Uses of the Tribal Water Right, provided that, due to the small and varied nature of the traditional religious and cultural uses identified in Article III.A, such uses need not be included on the report required by this subsection. The Parties shall concur in the listing of all Existing Uses of the Tribal Water Right within six months after receipt of the report.

4. On an annual basis DNRC shall provide the Tribe and the United States with a listing of all Excepted Rights for which a certificate of water right or permit has been issued or a Change in Use has been approved by DNRC within the Reservation and in drainages affected by this Compact, and an ownership update for each water right within the Reservation and in drainages affected by this Compact whose owner of record has been changed in DNRC's database.

5. On an annual basis BWRD shall provide the DNRC and the United States with an update since the last report listing all New Development of the Tribal Water Right described in this Compact within and outside the Reservation, of all Changes in Use of water rights within and outside the Reservation, and of all appurtenant water rights acquired pursuant to Article III.H.2.

6. The BWRD, the DNRC, and the United States may agree to modify the reporting requirements set forth in Article IV.I. Such modification is pursuant to, and shall not be deemed a modification of, this Compact.

7. Any Party may request additional information from any other Party to assist in reviewing any report made by one Party to another.

Such controversies shall include, but shall not be limited to, disputes as to the meaning of this Compact, disputes over the application and interpretation of the provisions of Article IV.D.3, disputes over the application and interpretation of the provisions of the Birch Creek Management Plan, and disputes between holders of Excepted Rights issued pursuant to Article IV.C.3 who are not enrolled members of the Tribe and other water right holders under either State or tribal law.

b. The jurisdiction of the Board shall not extend to the administration or distribution of water on lands served by the Milk River Project, nor to the diversion of water made outside the Reservation for Milk River Project use, nor to the administration or distribution of water on lands served by the Blackfeet Irrigation Project, nor to the administration or distribution of water on lands served by the Pondera County Canal and Reservoir Company.

5. Prerequisite Administrative Procedures.

a. Any Tribal Water Right holder concerned that a use of water by a holder of a Water Right Arising Under State Law is inconsistent with the Compact shall

first contact the BWRD. If the BWRD and the DNRC are unable to resolve the issue in a manner acceptable to the Tribal Water Right holder within a reasonable time through discussion, the BWRD or the Tribal Water Right holder may seek relief through the Compact Board. The DNRC agrees to assist the BWRD in obtaining reasonable access onto the land of the holder of the Water Right Arising Under State Law to acquire information regarding the challenged use.

d. Any authorized user of a portion of the Tribal Water Right appealing a decision of the DNRC to the Compact Board may seek technical assistance from the BWRD in preparing and presenting the appeal.

e. Any holder of a Water Right Under State Law appealing a decision of the BWRD to the Compact Board may seek technical assistance from the DNRC in preparing and presenting the appeal.

#### 6. Powers and Duties.

a. Hearings. The Board shall hold hearings upon notice in proceedings before it and shall have the power to administer oaths, take evidence and issue subpoenas to compel attendance of witnesses or production of documents or other evidence, and to appoint technical experts. The Tribe and the State shall enforce the Board's subpoenas in the same manner as prescribed by the laws of the Tribe and the State for enforcing a subpoena issued by the courts of each respective sovereign in a civil action. The Tribe and the State shall agree on a recommendation for each commissioner to be appointed by the Board. If the Tribe and the State fail to agree, each may nominate one individual for

consideration for each commissioner position, and the Board shall select from between the nominees.

ii. Under the jurisdiction of the Board, the commissioners shall have the authority to administer and distribute water on the Reservation and from the off-reservation portions of the Reservation boundary streams (the mainstems of Birch Creek, Cut Bank Creek and the Two Medicine River), to water right holders under the Tribal Water Right and the holders of Water Rights Arising Under State Law according to the rights fixed by all applicable decrees and this Compact. The authority of any commissioners appointed pursuant to this Article IV.J.6.b, as it pertains to facilities owned by the United States, shall extend only to the provision of written orders to the federal representative with the authority to adjust diversions or releases, which the federal representative, or his or her designee, shall then promptly carry out, so long as the federal representative determines that execution of the order does not threaten the safety, security or physical integrity of the facility, and does not extend to the actual opening or closing of headgates. The authority of any commissioners appointed pursuant to this Article IV.J.6.b, as it pertains the use of the Milk River Project Water Right, shall extend only to the delivery of water to the diversion facilities of the Milk River Project on the Reservation and shall not extend to the administration, diversion or distribution of water to or from any facilities or lands served by the Milk River Project off the Reservation. The authority of any commissioners appointed pursuant to this Article IV.J.6.b, as it pertains to portions of the Tribal Water Right used within the Blackfeet Irrigation Project, extends only to the delivery of water to Blackfeet Irrigation Project diversion facilities and shall not extend to the administration of that water on lands served by the Blackfeet Irrigation Project, which shall remain subject to Article IV.C.2. c. A court of competent jurisdiction in which a timely appeal is filed pursuant to Article IV.J.7.a, or in which a petition to confirm or enforce is filed pursuant to Article IV.J.7.b, may order such temporary or permanent relief as it considers just and proper.

d. An appeal may be taken from any decision of the court in which a timely appeal is filed pursuant to Article IV.J.7.a, or in which a petition to confirm or enforce is filed pursuant to Article IV.J.7.b, in the manner and to the same extent as from orders or judgments of the court in a civil action.

The Parties agree that only Congress can waive the immunity of the United States. The participation of the United States in the proceedings of the Compact Board shall be as provided by Congress.

C. Federal Legislation. The Tribe and the State agree to seek ratification of the Compact by Congress and any additional federal legislation necessary to effectuate the Compact.

#### ARTICLE VII - FINALITY

A. Ratification and Effectiveness of Compact.

1. Following the first ratification by any Party, the terms of this Compact may not be modified without the consent of the Parties.

2. Notwithstanding any other provision in this Compact, the Tribe reserves the right to withdraw as a Party if:

a. Congress has not ratified this Compact and authorized appropriations within four years from the date the ratification of the Compact by the Montana legislature becomes effective;

b. Appropriations are not made in the manner contemplated by the federal legislation ratifying this Compact;

c. The Parties do not reach agreement on the State contribution to settlement;

d. The State has not authorized appropriations within five years from the date the Compact is ratified by the United States; or

e. Appropriations are not made by the State in the manner contemplated by any agreement for contributions to settlement made pursuant to Article VI.A.

3. The Tribe may exercise its right to withdraw from the Compact under Article VII.A.2 by sending to the Governor of Montana and to the Secretary of the Interior by certified mail a resolution of the Blackfeet Tribal Business Council stating the Tribe's intent to withdraw and specifying a reason for withdrawal and a withdrawal date not sooner than one hundred and twenty days from the date of the resolution. On the date designated in the resolution for Tribal withdrawal, this Compact shall become null and void without further action by any Party, and the Parties agree to resume negotiation in good faith for quantification of the water rights of the Blackfeet Tribe and entry of a decree in a court of competent jurisdiction.

4. Notwithstanding any other provision in this Compact, the State reserves the right to withdraw as a Party to this Compact if:

a. the Tribe and Congress have not ratified this Compact within four years from the date the ratification of the Compact by the Montana legislature becomes effective;

b. Congress requires a State contribution to settlement that exceeds the contributions described in Article VI.A;

c. Congress does not authorize and appropriate the federal share of funding agreed to pursuant to Article VI.B; or

d. the DNRC does not concur in the list of Existing Uses of the Tribal Water Right pursuant to Article IV.I.2.

On the date designated in the letter for State withdrawal, this Compact shall become null and void without further action by any Party, and the Parties agree to resume negotiation in good faith for quantification of the water rights of the Blackfeet Tribe and entry of a decree in a court of competent jurisdiction.

6. Notwithstanding any other provision in this Compact, the Department of the Interior reserves the right to refuse to support federal legislation ratifying this Compact.

#### B. Incorporation into Decrees.

1. Within one hundred eighty days of the date this Compact is ratified by the Tribe, the State, and Congress, whichever is latest, the Tribe, the State, or the United States shall file, in the case In the Matter of the Adjudication of the Existing and Reserved Rights to the Use of Water, Both Surface and Underground, of the Blackfeet Tribe of the Blackfeet Reservation within the State of Montana, Civ. No. WC-91-1, pursuant to the provisions of State law, a motion for entry of the proposed decree set forth in Appendix 5 as the decree of the water rights held by the United States in trust for the Blackfeet Tribe. If the Montana Water Court does not approve the proposed decree submitted with the

motion within three years following the filing of the motion, the Compact shall be voidable by agreement of the State and the Tribe. If the Montana Water Court approves the proposed decree within three years, but the decree is subsequently set aside by the Montana Water Court or on appeal, the Compact shall be voidable by agreement of the State and the Tribe. Any effect of the failure of approval or setting aside of the decree on the approval, ratification, and confirmation by the United States shall be as provided by Congress. The Parties understand and agree that the submission of this Compact to a State court or courts, as provided for in this Compact, is solely to comply with the provisions of State law, and does not expand the jurisdiction of the State court or expand in any manner the waiver of sovereign immunity of the United States in the McCarran Amendment, 43 U.S.C. 666, or other provision of federal law.

2. Consistent with 3-7-224, MCA, setting forth the jurisdiction of the chief water judge, for the purposes of 85-2-702(3), MCA, the review by the Montana Water Court shall be limited to Article III, and Appendix 5 (proposed decree), and may extend to other sections of the Compact only to the extent that they relate to the determination of existing water rights. Nevertheless, pursuant to 85-2-702(3), MCA, the terms of the entire Compact must be included in the preliminary decree without alteration for the purpose of notice.

#### C. Disposition of Federal Suit.

1. On issuance of a final decree by the Montana Water Court or its successor, and the completion of any direct appeals therefrom, or on expiration of the time for filing any such appeal, the United States, the Tribe, and the State shall execute and file joint motions pursuant to Rule 41(a), Fed.R.Civ.P., to dismiss without prejudice the claims of the Tribe, Tribal members, and Allottees and any claims made by the United States for benefit of the Tribe, Tribal members, and Allottees in *United States v. Ageson*, No. CIV-79-21-GF (filed April 5, 1979). The case may only be resumed if the State or Tribe exercises their rights under Article VII.A.

2. The Decree shall be filed by the Parties as a consent decree in *Ageson*, or in federal court as a new proceeding after the dismissal of *Ageson* conditional on agreement by the Parties to seek the necessary State, Tribal, and federal legislation to implement the remaining provisions of the Compact, if it is finally determined in a judgment binding on the State of Montana that the State courts lack jurisdiction over, or that the State court proceedings are inadequate to adjudicate some or all of the water rights asserted in *Ageson*.

#### D. Settlement of Tribal Water Right Claims.

1. The water rights and other benefits confirmed to the Tribe in this Compact are in full and final satisfaction of and are intended to be in replacement of and substitution for all claims to water or to the use of water by the Tribe, Tribal members, and Allottees and the United States on behalf of the Tribe, Tribal members, and Allottees existing on the Effective Date of this Compact, including water rights claims based on or recognized in *Conrad Inv. Co. v. United States*, 161 F. 829 (9th Cir. 1908), within the Reservation.
