ORDER AND WATER MASTER REPORT

IN THE WATER COURTS OF THE STATE OF MONTANA
LOWER MISSOURI DIVISON
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* *

IN THE MATTER OF THE ADJUDICATION OF THE EXISTING RIGHTS TO THE USE OF ALL THE WATER, BOTH SURFACE AND UNDERGROUND, WITHIN THE MUSSELSHELL RIVER DRAINAGE AREA ABOVE ROUNDUP, INCLUDING ALL TRIBUTARIES OF THE MUSSELSHELL RIVER ABOVE ROUNDUP IN WHEATLAND, GOLDEN VALLEY, MEAGHER, FERGUS MUSSELSHELL, SWEET GRASS, PARK, YELLOWSTONE AND STILLWATER COUNTIES, MONTANA.	)

STATE OF MONTANA
Water Courts

I hereby certify that the instrument to which the certificate is affixed is a true, correct and compared copy of the original on file in the office of the Clerk of the Water Courts.

Witness my hand and the seal of the Water Courts of the State of Montana this 3 day of May 1985

Clerk of the Water Courts

ORDER

Having reviewed the Water Master's Report of existing rights in the Musselshell River Above Roundup Basin, the Court finds that the Report meets the requirements for the Temporary Preliminary Decree set forth in 85-2-231(1) MCA. The Court, now being satisfied with the Findings of Fact and Conclusions of Law contained in the Report,

ORDER, that the Water Master's Report and the abstracts of the individual water rights in the Musselshell River Above Roundup Basin be adopted as the Temporary Preliminary Decree of that Basin pursuant to Section 85-2-231 MCA.

DATED this 1st day of May, 1985.

W.W. LESSLEY,
Chief Water Judge
Montana State Water Courts

IN THE WATER COURTS OF THE STATE OF MONTANA
LOWER MISSOURI DIVISION
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* *

IN THE MATTER OF THE ADJUDICATION OF THE EXISTING RIGHTS TO THE USE OF ALL THE WATER BOTH SURFACE AND UNDERGROUND, WITHIN THE MUSSELSHELL RIVER DRAINAGE AREA ABOVE ROUNDUP, INCLUDING ALL TRIBUTARIES OF THE MUSSELSHELL RIVER ABOVE ROUNDUP IN WHEATLAND, GOLDEN VALLEY, MEAGHER, FERGUS, MUSSELSHELL, SWEET GRASS, PARK, YELLOWSTONE, AND STILLWATER COUNTIES, MONTANA.	)

REPORT OF THE WATER MASTER ON THE
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN

This Report is submitted to the Honorable W. W. Lessley, Chief Water Judge, by Edward S. Steinmetz, Water Master for the Musselshell River Above Roundup Basin.

FINDINGS OF FACT

1. Authority to Act

This Decree is issued by a Water Judge as authorized by Chapter 697, Session Laws 1979 (85-2-201 MCA) as amended.

2. Description of Basin

The Musselshell River Valley, includes most of Wheatland County and Golden Valley County and small portions of Meagher, Musselshell, Sweet Grass, Park, Fergus, Yellowstone and Stillwater Counties.

The Musselshell River Valley was originally the hunting grounds of the Sioux and Crow Indian Tribes. This area was explored by the Hayden Exposition in the 1850's, but it was not until the late '70's and early '80's that military posts were established in this area and permanent settlement begun. The

area's first settlers consisted mainly of goldminers in Wheatland County and the baron cattlemen in Golden Valley County. The cattlemen, mostly of English and Scottish descent, were the first to develop irrigation of the bottom lands along the Musselshell River for the production of hay for winter feed for livestock.

With the construction of railways in 1906 and 1908, settlers expanded into the area and by 1915 much of the better range land was homesteaded and fenced. Dryland farming methods proved successful until the years 1918 to 1922 when a severe drought produced repeated crop failures. Shortly thereafter, several irrigation projects were started in the basin. However, due to the nature of the flow of the streams in the area, the construction of these works was an extremely hazardous investment. In the Spring the streams would be swollen beyond their banks, and in the Summer or early Fall scarcely enough water was available to supply livestock needs, much less irrigation needs. The settlers realized that in order to have permanent irrigation farming and a dependable water supply, they must be able to capture and store the abundant Spring runoff. Their efforts have ultimately led to the construction of the DuRand, Martinsdale and Deadman's Basin reservoirs.

The Musselshell River Valley has a climate typical of the semi-arid Great Plains Region, marked by abundant sunshine, low relative humidity, moderate winds, low precipitation, wide daily and seasonal variations of temperature, and a relatively short growing season. The average annual precipitation is about 13 inches per year.

The Upper Musselshell Valley area comprises the alluvial lands of the Musselshell Valley and adjacent irrigable uplands and gravelly benches. The better bottomland soils generally have a uniform profile of silt loam or fine sandy loam to a depth of 24 to 48 inches. Drainage is good to excessive, except in some of the soils on the bottomlands that have a high ground-water level and in others on colluvial slopes that receive seepage water from higher levels. Though some of the soils are somewhat deficient in organic matter, nearly all have some available plant nutrients in their natural state. However, under irrigation and continuous cropping, some of the nutrients may become deficient.

Under dryland farming methods, the adapted crops are restricted chiefly to hardy, early maturing small grains and native hay. Where an adequate supply of irrigation water is available, however, a variety of garden crops, grain, and tame hay can be grown on most of the soils.

The principal stream in both Wheatland County and Golden Valley County from which water for irrigation is diverted is the Musselshell River, which drains an area of approximately 9,000 square miles. This river is a stream of intermittent flow - it has a high runoff in the Spring and a shortage of water after July.

The North and South Forks of the Musselshell River, which unite near Martinsdale, have their origin in (a) North Fork, Little Belt and Castle Mountains, and (b) South Fork, Castle and Crazy Mountains. The Crazy Mountains bound the watershed on the

south, the Castle Mountains on the west, and the Little Belts and the Big Snowy Mountains on the north. These mountains are all high in elevation (6,000 to 10,000 feet), for the greater part are well timbered, and during average years of precipitation are good watersheds.

Numerous small streams enter the main river below the Forks. The main tributaries between Martinsdale and Shawmut are: Little Elk, Big Elk and Lebo Creeks and American Fork entering the river from the south, and Daisy Dean, Haymaker, Hopley and Antelope Creeks entering from the north. Below this point the principal tributaries are: Fish Creek, which rises in the Cayuse Hills east of the Crazy Mountains and flows northeast to join the Musselshell River near Ryegate; Careless, Cameron and Pole Creeks, which rise in the Big Snowy Mountains and flows southeast to join the Musselshell River near Ryegate and Roundup respectively; Willow Creek, which also rises in the Big Snowy range and flows east and north to its confluence with the Musselshell; Flat-willow Creek which, with its two large tributaries Box Elder and McDonald Creeks, rises on the northeastern slopes of the Big Snowy Mountains and flows east to join Box Elder Creek, which flows east to join the Musselshell River.

There were 5,629 claims of existing rights filed in the Musselshell River Above Roundup Basin for irrigation, stockwater, domestic and other uses. The boundaries of this Basin are outlined in the attached map.

3. Water Right Owner

Generally, the Court issues a water right to the appropriator, who is usually the claimant. If there is evidence that a change of ownership has occurred, the Court issues the right in the name of the new owner. If a change has occurred and the Court was not informed, the correct name can be added at a later date.

A water right transfer certificate is "constructive notice of the content thereof" and failure to file a transfer does not affect the actual transfer of water. 85-2-423 et. seq MCA. When a transfer certificate is received by the Water Courts after a Preliminary Decree has been issued, the original owners name is retained. A remark is added listing the new owner's name as provided by the transfer certificate.

Some water rights are claimed by more than one person on separate claim forms. When both claimants insist on ownership, each is decreed the right but a remark is added to each decree noting the conflict.

4. Pre-1973 Water Rights

The general adjudication of water rights is to cover rights existing before 1973.

An existing water right includes those rights which would be protected under the law as it existed prior to July 1, 1973, pursuant to 85-2-102(7) MCA.

5. Specifics of Procedure

The Court outlined and supervised the procedure of processing the claims to existing rights. A claim is examined for incomplete or inaccurate information. It is then reviewed for actual and beneficial use. The Court ordered the Department of Natural Resources and Conservation to assist in the processing of the claims.

The extent of each individual water right claim is further defined by these Findings of Fact and Conclusions of Law. Where a claimant filed two or more water rights on the same claim form, each right was separated and assigned an individual water right number. If the claim did not include all the information required by 85-2-224 MCA and the information was not available, the right was decreed within the limits of the information submitted.

The specifics of each individual claim is defined by an abstract of the water right. Each individual abstract of the claimed right includes (where possible):

(a) The name and post office address of the owner of the right;
(b) The amount of water, rate and volume included in the right;
(c) The date of priority of the right;
(d) The purpose for which the water included in the right is used;
(e) The place of use and a description of the land, if any to which the right is appurtenant;
(f) The source of water included in the right;
(g) The place and means of diversion;
(h) The inclusive dates during which the water is used each year;
(i) Any other information necessary to fully define the nature and extent of the right.

6. Multiple Uses of a Water Right

Usually, a water right is decreed and the uses of the right are noted. In this general adjudication, the claimants filed separate claims for each use of the water right. Special claim forms were used for irrigation, stockwatering, domestic use and a catch-all form for all other uses. As a result of this unique filing, each use of a water right will be decreed separately. Therefore, a water right might be represented by two or more decreed uses.

A remark notation of the multiple use of a water right appears in the following instances:

1. Whenever an irrigation and an "Other Use" are for the same water right.

2. Whenever a water right has two or more "Other Uses."

In all cases where any multiple use of a right occurs, the combined flow rate and volume cannot exceed the original appropriation. The use of the right for several purposes does not increase the extent of the right, rather it decrees the right to alternate and interchange the use (purpose) of the water in accord with historic practices.

7. Source Name

Although some sources of surface water in the Musselshell River Above Roundup Basin were claimed under several names, the source is generally designated in the Decree by the name listed in the United States Geological Survey. If the source has not been designated by the U.S.G.S., the source name of most common

recognition in the locality has been used.

Commonly recognized reservoir and lake names will appear as source names. Those lakes and reservoirs that have no commonly recognized name are generally decreed under the name of the outflowing stream. The source name index of the Temporary Preliminary Decree cross-indexes any such source names for easy access.

When more than one source is claimed for a water right, the Court determines the major source and lists that source in the Decree. If more than one source is determined to be major, a separate claim is made for the claimant.

8. Priority Date

The priority date claimed is recognized as prima facie and so decreed except where it is incomplete; or it would result in a clearly erroneous interpretation of the law; or the claim's supporting documentation contradicts the claimed priority date.

Priority dates were decreed in accord with the following:

Where a claimed priority date included only a year, or a year and a month, the last day of the year and the last day of the month are decreed as the priority date.

Priority dates for groundwater rights after 1961 are reviewed for compliance with the Groundwater Act. Priority dates are not changed if it appeared that the wrong form had been used.

If a claim to groundwater after 1961 is based on use, the priority date is decreed as the date of filing the claim to the

existing right.

9. Irrigation

Irrigation is a beneficial use of water.

Flow Rates. In this general adjudication under Chapter 697, Session Laws 1979, flow rates are decreed in gallons per minute (gpm) or in cubic feet per second (cfs) instead of the traditional miner's inches. Eleven gpm is equivalent to one miner's inch; forty miner's inches is equivalent to one cubic foot per second.

THE FLOW RATES OF ALL PREVIOUSLY DECREED WATER RIGHTS ARE UNCHANGED AND ISSUED IN ACCORD WITH THE FLOW RATE DECREED IN THE ORIGINAL ADJUDICATION.

WHEN DIFFERENT CLAIMANTS CLAIMED WATER RIGHTS BASED ON DECREES AND THE TOTAL FLOW RATE CLAIMED BETWEEN THE CLAIMANTS EXCEEDED THE AMOUNT ON THE DOCUMENT, A REMARK IS ENTERED ON EACH DECREE NOTING THOSE DECREED USES OF THE EARLIER DECREED RIGHT.

Flow rates based on a "filed notice of appropriation" or "use" right shall not exceed a reasonable application rate. A reasonable application rate for flood, sprinkling and pump systems which is in keeping with the general requirement of most users in the Basin shall not exceed 17 gpm per acre (1.5 miner's inches). The Court has decreed all claimed flow rates of 17 gpm per acre or less on such systems. HOWEVER, IF THE SUBMITTED DOCUMENTATION CLEARLY DOCUMENTS A LARGER CLAIMED FLOW RATE, IT WAS SO DECREED.

Water spreading, subirrigation and natural overflow and

other irrigation systems not subject to quantification do not generally have a constant or consistent flow rate. The extent of the right is limited by the decreed volume. While the water rights for subirrigation and natural overflow are decreed, the owner of the right does not have a right to demand continued right of the water by these means of diversion.

Volume. Volume is decreed in acre-feet benefically used in one year. An acre-foot of water will cover one acre to a depth of one foot. Net crop consumption requirements are considered to be the total amount of irrigation water a crop will use during an average growing season. Water usage is dependent on the overall efficiency of the irrigation system. General maximum requirements of differing systems are outlined in the following table:

Climatic Area	Flood Systems (diversion ditch) Volumes (AF/A)	Sprinkler & Pumped Diversion Systems Volumes (AF/A)	Water Spreading Systems, Subirrigation and Natural Overflow Volumes (AF/A)
I	11.4	4.5	2.3
II	10.2	4.0	2.0
III	9.2	3.8	1.9
IV	8.5	3.4	1.7
V	7.2	2.9	1.4

Volumes are measured at the point of diversion

Period of Use. Because the period of use can vary widely for each individual user, the period of use is accepted as claimed unless the claimed period of use contradicts a previously decreed or documented period of use.

If a period of use was not designated by the claimant, a period of use for irrigation claims was assigned in accord with a reasonable irrigation season for the climatic area. Those

seasons are as follows:

Climatic Area	Period of Use
I	3-15 to 11-15
II	4-01 to 10-30
III	4-15 to 10-15
IV	4-20 to 10-10
V	4-25 to 10-05

Place of Use.

A. Verification of Place of Use. Irrigation rights are decreed to a defined place of use. In delineating the place of use, the claim is verified by the use of aerial photographs, field investigation and data submitted by the Department of Natural Resources and Conservation and the claimant. The place of use for irrigation is accepted as claimed except when the land did not appear irrigated or irrigable.

The place of use is designated by legal land description and can be further defined by reference to the maps and referenced aerial photographs included in the Court records.

B. Supplemental Water Rights and Place of Use. In many cases, several water rights with differing priority dates or different sources are combined to supplement the irrigation requirements of all or part of the same acreage. Supplemental rights means the rights have overlapping places of use. The rights can be combined to irrigate only overlapping parcels of the claimant's total acres. The combined volume of these rights shall not exceed the given acre-feet per year. Each right is limited to the flow rate, volume and place of use.

Place and Means of Diversion. The place and means of diversion are designated. The place of diversion is specifically designated by legal land description.

Secondary points of diversion are noted when possible; however, the claim and claimant's map in many cases will more specifically define the point of diversion.

When a point of diversion is found on a source other than the one claimed, the other source points of diversion are decreed when that source is determined to be an incidental part of the original source. A remark will appear with the other source points of diversion that identifies the incidental source. If the other source is not considered incidental, a separate claim is created.

THIS INFORMATION IN THIS FINDING IS ONLY A GUIDELINE AND IS SO USED. THEY CAN AND WILL BE MODIFIED TO SHOW THE WATER CLAIMANT'S OWN CIRCUMSTANCES. THIS CAN BE DONE ON CLAIMANT'S OBJECTIONS OR WATER COURT'S OWN MOTION.

10. Irrigation Districts

Some irrigation districts used their water rights on designated places of use and the right has become appurtenant to the land. In those cases, the claim was verified and decreed in accord with the criteria used for all other irrigation claims.

Where the irrigation district engaged in the sale of water or the place of use changed on a continuing basis, the claimed flow rate and volume were decreed as claimed without an attempt to verify usage.

The several rights on one claim form are identified as being supplemental. Water rights from separate sources that water the same land are identified as being supplemental.

11. Domestic Use

Flow Rate. The average flow rate from a groundwater source in the State of Montana is approximately 25 gallons per minute. However, a flow rate of 40 gallons per minute is acceptable. As a result, those domestic rights with a claimed flow rate of 40 gallons per minute or less are so decreed. Where the claimed flow rate and the accompanying documentation does not substantiate a flow rate, the right is decreed a flow rate of 25 gallons per minute. When a flow rate claimed had been previously decreed, the flow rate is not changed.

Volume. A reasonable volume of water for domestic use is calculated at 1.0 acre-feet per household with an additional .5 acre-foot for each quarter acre of yard.

Flow rates and volumes are measured at the point of diversion.

Place of Use. Land irrigated as part of the domestic use is decreed as part of the place of use. If a claim for domestic use included irrigation separate from the domestic use, the irrigated land was decreed separately.

Period of Use. The period of use claimed is the period of use decreed.

12. Stockwater

Volume. Stockwater is a beneficial use of water. The limit of the right is based on a consumptive use of 30 gallons per day per animal unit. An animal unit is described as a cow/calf pair or equivalent. The number of animal units is in most instances

limited to the reasonable carrying capacity of the area historically serviced by the water source. In those cases when historically the source is utilized more intensively, for instance in the case of a confined stockyard, the right increases based on the number of animal units. Finally, where the stockwater is impounded in a reservoir, a right to reasonable carryover for use in future years is acknowledged.

Flow Rate. The flow rates for groundwater developments for stockwatering purposes were governed by the same principles on domestic groundwater sources. Those rights involving stock drinking directly from instream surface water sources do not reflect a specific flow rate. The instream flow rate shall be reasonable and shall not exceed the extent of the right as historically utilized.

Place of Use. Where stock drink directly from the surface water source, the point of diversion and place of use seek to show all land adjacent to the source.

13. Reservoirs and Storage of Water

A storage right can exist for water that would otherwise go to waste. This right is dependent upon the lack of interference with other rights.

The right to appropriate water by storage in a reservoir is a right separate from a water right. Actual beneficial use of stored water creates a water right. The Court decrees the limits of that right.

14. Other Uses

In the Musselshell River Above Roundup Basin water claims for commercial, flood control, fish and wildlife, industrial, municipal, mining, recreation, and wildlife were submitted.

The Court finds that no individual nor Department filed any valid instream claims for fish, wildlife and recreational instream uses.

"Murphy Rights." Section 1 of Chapter 345 of the 1969 Session Laws provided for the appropriation of water in designated streams to maintain fish and wildlife habitat. The Court subjects these rights to all prior existing rights pursuant to 89-801 RCM 1947. The flow rate and volume of these rights are subject to change should the Court determine the waters are needed for a use determined to be more beneficial to the public.

Flow Rates. Flow rates are decreed as claimed unless the documentation accompanying the claim supported a different amount. The Court could not, however, determine a flow rate for the minimal amount necessary to sustain fishing, wildlife, recreation and navigation. Flow rates for mining, power generation and fish raceways are accepted when it is determined that the amount claimed is less than the average annual stream flow. Rates in excess of the average annual stream flow are reduced to that average rate.

Volumes. Volumes are decreed as claimed unless the documentation accompanying the claim support a different amount.

Commercial and industrial use are limited to a volume based

on a twelve hour day unless documentation supports a higher volume based on an extended period of use.

Agricultural spraying was limited to a reasonable volume of five acre-feet unless documentation supported a higher volume.

Incidental Use. Many purposes, especially fish, wildlife and recreation, are incidental to another beneficial use of water. The extent of the water right for an incidental use is no more than the extent of the primary use of the water.

Non-Consumptive Use. The Court recognizes that several uses do not consume water. A remark is added to these uses declaring the use to be non-consumptive.

15. Standards

The standards used by the Water Court to aid it in calculating flow rate, volume and other elements of a water right are merely yardsticks to serve as a means to what should or should not be.

THEY ARE NOT ABSOLUTE; THEY ARE NOT UNCHANGEABLE. THEY ARE SUBJECT TO MODIFICATION TO REFLECT AN INDIVIDUAL CLAIMANT'S WATER RIGHT IN ITS TRUE AND CORRECT SENSE.

16. Claimed Federal Reserved Water Rights

The determination of water rights in the Musselshell River Above Roundup Basin shall be subject to the contents of any future compact negotiated by the Montana Reserved Water Rights Compact Commission and the United States of America which will determine reserved water rights of the United States Forest

Service. Should no compact be approved in accordance with Title 85, Part 2, Chapter 7, Montana Code Annotated (1983) or applicable law, this Preliminary Decree is subject to the determination, in accordance with State procedure, of water rights claims of the United States of America on behalf of the United States Forest Service. The general adjudication of water rights is to cover rights to the use of water which would be protected under the law as it existed prior to July 1, 1973, subject to the livestock and domestic uses exempted in 85-2-222 Montana Code Annotated (1983).

17. Terminated Claim

The Water Court takes judicial notice of water claims that have been terminated during this adjudication process. Instances are:

1. A claim filed with the adjudication Field Office and withdrawn and terminated by the claimant because of self-confessed errors and filed anew.

2. Claims filed and then withdrawn at claimant's request.

3. Claims that appear in the abstracts of water rights as part of the Temporary Preliminary Decree because they were assigned a "number" by the Helena, Montana office, and later returned to the forwarding Field Office; and these claims have a remark on the abstract of their termination for one reason or another from claimant. These claims are "alphabetized" and stored in the archives of the Department of Natural Resources and Conservation by Field Offices.

The claims are printed in both decrees. The "0" prefix will tell the computer to print a statement saying, "The Court finds no right for this claim, as it has been withdrawn at the request of the claimant."

4. Claims terminated by the Field Offices and the DNRC before an Order of this Court of April 22, 1982, ordering that these claims were not to be terminated but stamped at the time of filing and processed as all other claims, even though there was a failure of payment of fees. All claims terminated because of lack of payment will be considered specially by this Court at the time of Temporary Preliminary Decree hearings.

18. Supreme Court

That there is pending in the Supreme Court of the State of Montana, Case #83281, entitled Department of State Lands vs. Walter Pettibone and Others; that an opinion has not been issued in that case.

Based on the Findings of Fact, the Water Master makes the following:

CONCLUSIONS OF LAW

1.

This Report meets the requirements for a Temporary Preliminary Decree as required by 85-2-231 MCA 1979.

2.

For each person who claims an existing water right in this

Basin, there is attached to this Temporary Preliminary Decree a statement defining the nature and extent of his claimed right, as found by the Water Court and as requested by 85-2-231 MCA and 85-2-234 MCA; these Conclusions make all these attached statements a part of this Report.

3.

All notices, all substantive and procedural requirements of court adjudication of water claims and requirements for hearing and decision have been fulfilled.

4.

The water adjudicated in this cause is a water use that is of a beneficial use and is the property of the State of Montana and for the use of these named water claimants, subject to their appropriative rights as specified in this Report.

5.

All Findings are merged with these Conclusions of Law to give them the force of law in this Report.

6.

Should the reserved water rights claims of the United States of America on behalf of the United States Forest Service be determined by a compact approved in accordance with Title 85, Part 2, Chapter 7, Montana Code Annotated (1983), or approved in accordance with applicable law, objections to the Preliminary Decree may be made by the United States of America, the Department of Natural Resources and Conservation, a person named in this Decree, or any other person for good cause shown.

Should no compact be approved, the claim of the United

States of America on behalf of the United States Forest Service will be determined by this Court in accordance with State procedure.

No Final Decree will be issued on the Musselshell River Above Roundup Basin until each person who has filed a claim of existing right and the United States of America on behalf of the United States Forest Service has been notified of the determination of all water right claims in the Basin, including the reserved water rights of the United States Forest Service, and any proper objections to those determinations have been heard.

7.

This Report is a Temporary Decree as authorized by 85-2-231 MCA and will be finalized by the Water Court at the appropriate time.

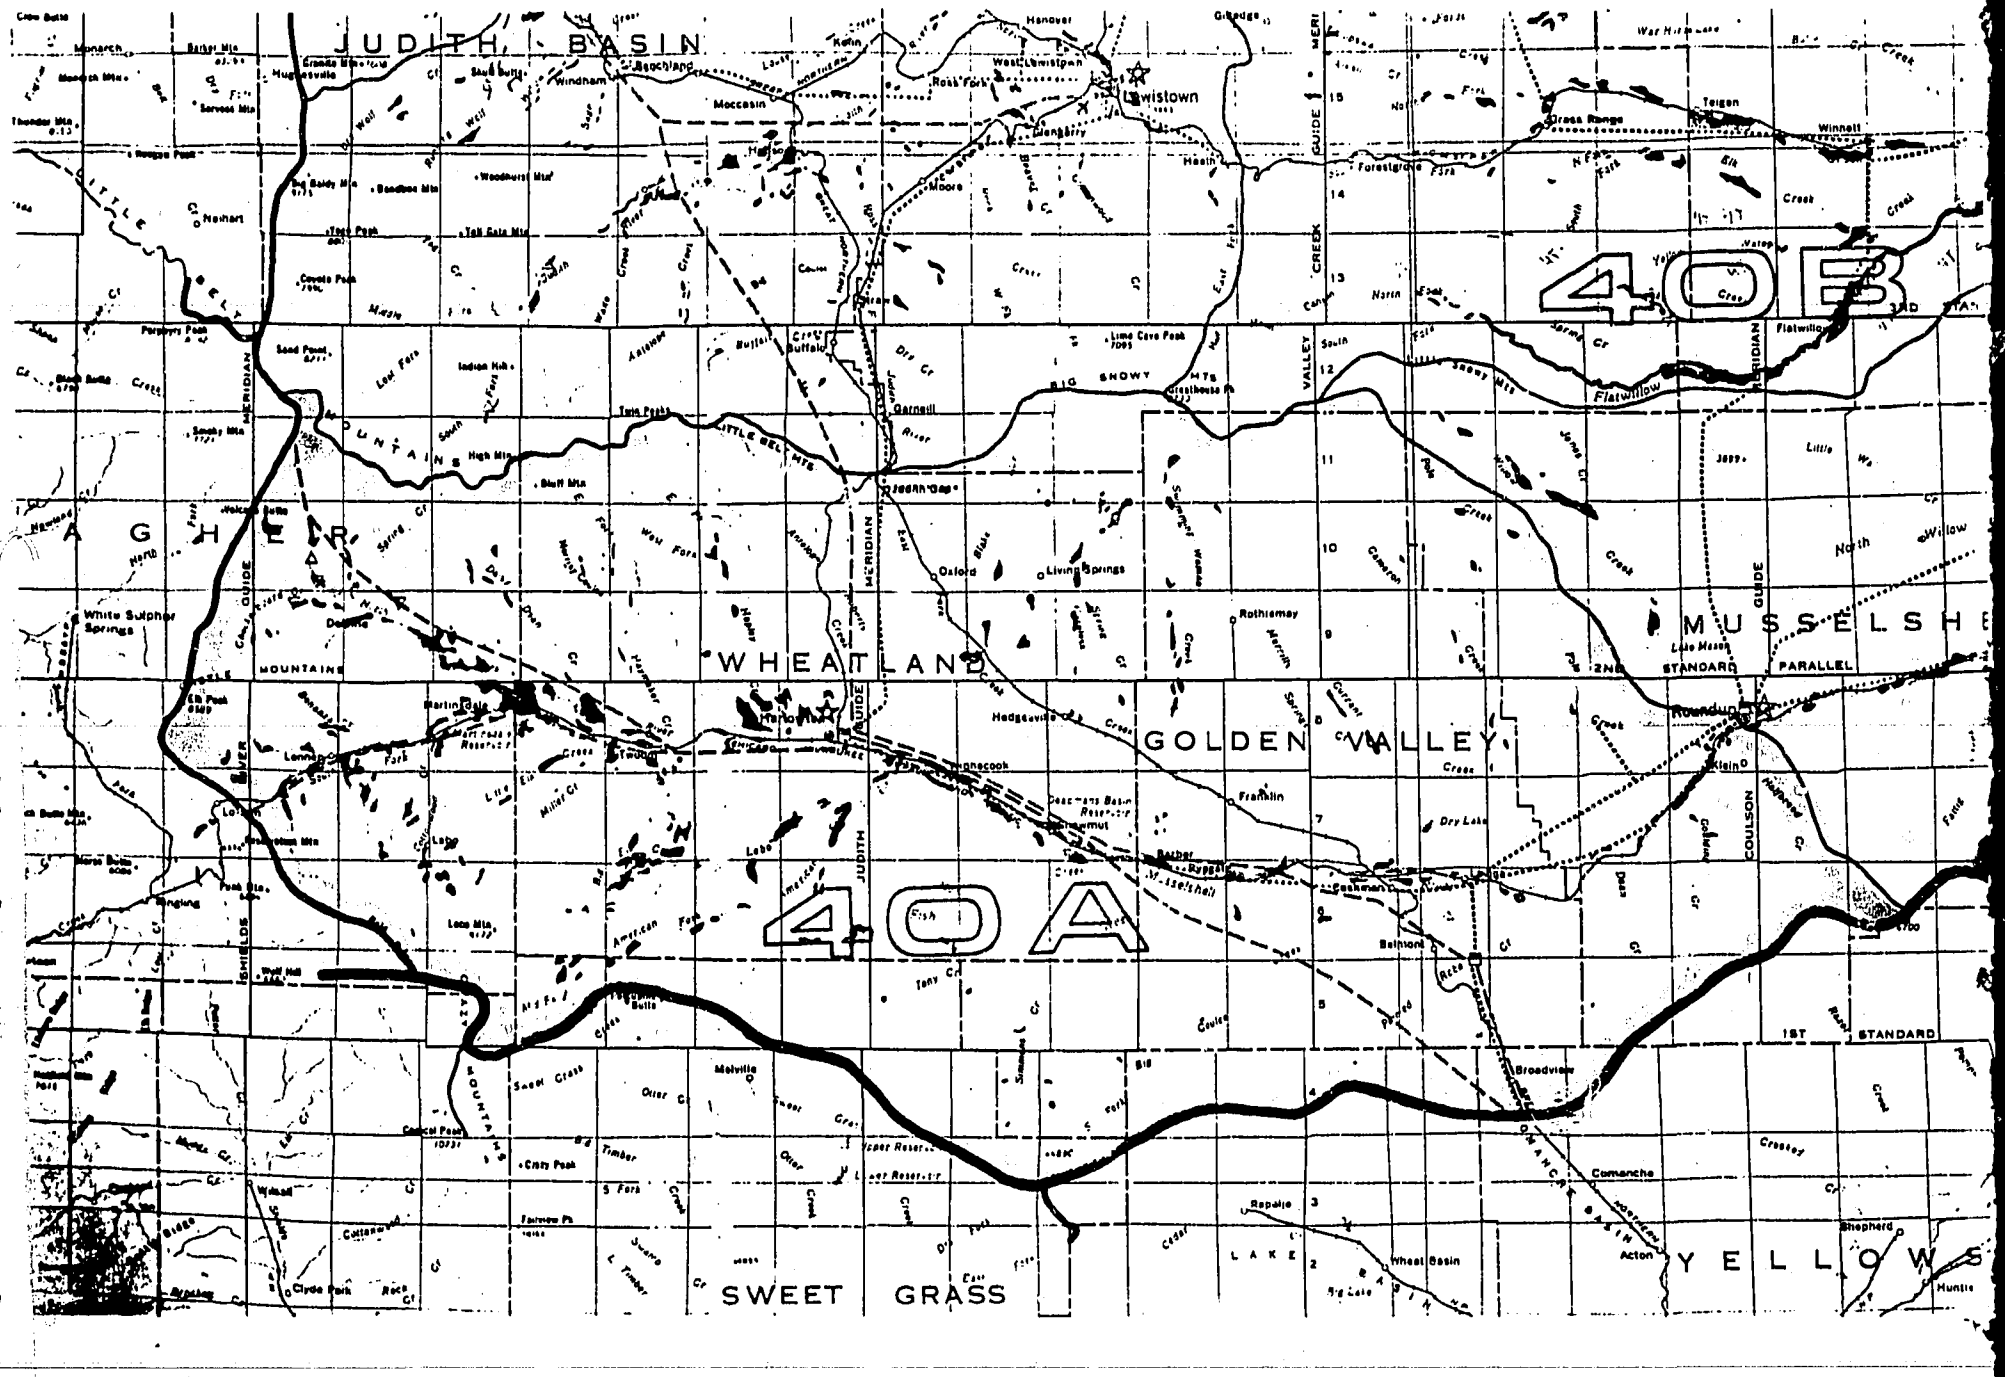

8.

All Decrees, both Preliminary and Final, shall be amended to conform to the final decision in Case #83281, entitled Department of State Lands vs. Walter Pettibone and Others.

DATED this 1st day of May, 1985.

MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* *

IN THE MATTER OF THE ADJUDICATION OF THE EXISTING RIGHTS TO THE USE OF ALL THE WATER, BOTH SURFACE AND UNDERGROUND, WITHIN THE MUSSELSHELL RIVER DRAINAGE AREA ABOVE ROUNDUP, INCLUDING ALL TRIBUTARIES OF THE MUSSELSHELL RIVER ABOVE ROUNDUP IN WHEATLAND, GOLDEN VALLEY, MEAGHER, FERGUS, MUSSELSHELL, SWEET GRASS, PARK, YELLOWSTONE, AND STILLWATER COUNTIES, MONTANA.	)

MEMORANDUM

Early in our State's history (March 12, 1885) we were concerned about measurement of Montana water.

85-5-302 MCA, whose genesis was a statute of 1905, is still our guiding law. It states ". . . shall be required to have suitable headgates at the point wherein a ditch taps a stream and shall also, at some suitable place on the ditch and as near the head thereof as practicable, place and maintain a proper measuring box, weir or other appliance for the measurement of water flowing in such ditch."

Now, as we move into the present and future of water and its management, measurement of that water is most important.

DATED this 17 day of May, 1985.

W. W. LESSLEY
Chief Water Judge
P.O. Box 879
Bozeman, MT 59715

IN THE WATER COURTS OF THE STATE OF MONTANA
LOWER MISSOURI DIVISION
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* *

IN THE MATTER OF THE ADJUDICATION OF THE EXISTING RIGHTS TO THE USE OF ALL THE WATER, BOTH SURFACE AND UNDERGROUND, WITHIN THE MUSSELSHELL RIVER DRAINAGE AREA ABOVE ROUNDUP, INCLUDING ALL TRIBUTARIES OF THE MUSSELSHELL RIVER ABOVE ROUNDUP IN WHEATLAND, GOLDEN VALLEY, MEAGHER, FERGUS, MUSSELSHELL, SWEET GRASS, PARK, YELLOWSTONE, AND STILLWATER COUNTIES, MONTANA.	)

MEMORANDUM

The command of the Legislature was to "expedite" and facilitate the adjudication of the water rights of Montana.

To assure a speedy, simple and effective program for adjudication of Montana water, there was created a specific statewide program, operated by a newly created Water Courts system, all under the supervision of the Montana Supreme Court.

The Act creating the adjudication program and its Water Courts became law May 11, 1979; immediately on June 8, 1979, the Supreme Court promulgated its rules and prescribed forms and set in motion a statewide filing of water right claims.

Meanwhile, between May 11, 1979 and June 12, 1979, Water Judges were elected. Present Water Judges are Bernard W. Thomas, Robert M. Holter and Roy C. Rodeghiero. Early in June, 1979, these Water Judges met and began supervising (under Supreme Court direction) the preparing, filing and collecting of more than 200,000 water claims in the State of Montana. These Judges met and elected Judge W. W. Lessley to act as a Chief

Water Judge to give direction and unity to their work. (In 1981 a statute amending the original Adjudication Act was passed and Lessley was appointed Chief Water Judge by Chief Justice Haswell of the Supreme Court.)

On April 30, 1982, all water claims were in under the direction of the Water Courts and clarification by field personnel began.

In early November, 1980, the first Water Master was appointed and adjudication began in two large basins of the Powder River. 10,302 water claims were adjudicated, 316 objections were filed; hearings held on 146 cases. A final decree on both basins was filed April 14, 1983, and only one appeal from all that adjudication has been filed in the Supreme Court.

Meanwhile in June, 1983, the Water Courts had the 200,000 claims computerized and in a single master computer located in Helena. The Courts are now supervising the final verification of all claims for the final computer run for all preliminary decrees.

The organization and staff of the Water Courts has grown. As directed by the Legislature, it has three Water Judges, a Chief Water Judge, five Water Masters and four office employees skilled in office skills, word processing, docket-base computer work and in Water Courts procedures and forms.

The Water Courts have established their own Rules of Court, specialized forms for objections, pre-pre trial and pre-trial

Procedure for water case hearings and trials; all objections are heard promptly and accurate recording machines prepare Court records and transcripts of all hearings.

As of now, final decrees have been issued in three Basins.

The Water Courts in 1985 will adjudicate at least sixteen Basins; there is a real possibility to adjudicate 20 Basins.

Specifically, 50,357 individual water claims have been clarified, verified and adjudicated by preliminary decrees as of January, 1985, with final decrees ahead.

This comprehensive Water Court program has been challenged in Federal Courts. The words of the District Federal Judges who first heard the challenge are significant. The key phrase of the evaluation of Montana's program by Chief District Judge Battin and District Judge Hatfield is: "It is clear that the adjudication contemplated by the Bill is both comprehensive and efficient." Federal Judges Battin and Hatfield spell out the specifics of the working of the Montana Water Courts in this clear and practical language:

> "By enactment of the last legislature of the State of Montana, Senate Bill 76, as yet uncodified, has provided the vehicle for adjudicating claims of existing water rights in Montana. The provisions of that Bill bear heavily upon this Court's decision to dismiss these cases on the basis of wise judicial administration.
>
> In essence the Bill provides for adjudication of all existing water rights in the State of Montana. Section 6 of the Bill provides that:

1) The action for the adjudication of all existing water rights under [this act] is commenced with the issuing of the order by the Montana Supreme Court to file a statement of a claim of an existing water right as provided in [section 16].
(2) The water judge for each division shall exercise jurisdiction over all matters concerning the determination and interpretation of existing water rights within his division.
....
(4) All matters concerning the determination and interpretation of existing water rights shall be brought before or immediately transferred to the water judge in the proper water division unless witnesses have been sworn and testimony has been taken by a district court prior to the date of the Montana Supreme Court order as provided in [section 16].

Section 16 of the Bill provides that:
(1) The Montana Supreme Court shall within 10 days of the filing of the petition by the attorney general issue an order to file a statement of a claim of an existing water right in substantially the following form:

"WATER RIGHTS ORDER

FAILURE TO FILE A CLAIM AS REQUIRED BY LAW WILL RESULT IN A CONCLUSIVE PRESUMPTION THAT THE WATER RIGHT OR CLAIMED WATER RIGHT HAS BEEN ABANDONED. . . . This order is notice of commencement of procedures for the general adjudication of existing rights to the use of water and of the requirement to file a claim for certain existing rights to the use of water. Every person, including but not limited to an individual, partnership, association, public or private corporation, city or other municipality, county, state agency of the State of Montana, and federal agency of the United States of America on its own behalf or as trustee for any Indian or Indian tribe, asserting a claim to an existing right to the use of water arising prior to July 1, 1973, is ordered to file a statement of claim to that right with the department no later than June 30, 1983. . . ."

[3] The above-cited sections reflect both the policy and the essential mechanism for adjudication of state water rights. Adjudication by adversary proceeding initiated by one claimant against all others in his drainage has been for-

saken in favor of blanket adjudication of all claims, including federal and federal trust claims, in a systematic manner. The procedure outlined in the Bill is that of: (1) filing of an order by the Supreme Court requiring the filing by all claimants of statements of each claim; (2) upon filing of all claims, submission of the claims to the water judge in the division or district in which the claimed water is diverted; (3) through utilization of special masters, the rendering, by the water judge, on the basis of the filed claims, of a preliminary decree of water right; (4) after passage of time without objection to the preliminary decree, entry of a final decree of water right which is binding upon all parties; (5) if objection is timely taken by the claimant to the preliminary decree, judicial determination of the right, but without the necessity of joining all users in the claimant's drainage.

And the Court concludes:

> As the general adjudication has been initiated by recent order of the Montana Supreme Court, it would seem that the greater wisdom lies in following Colorado River, and on the basis of wise judicial administration, deferring to the comprehensive state proceedings. The federal proceedings are all in their infancy; service of process has been but recently completed. The state adjudication is thorough, as opposed to the piecemeal proceedings initiated by the Government. There is no jurisdictional question preliminarily attending the state adjudication; all such questions have been eliminated by the McCarran Amendment. The state forum will likely be more convenient, geographically, than the federal forum.

The original hearing before the 9th Circuit carried the minority opinion of Circuit Judge Merrill. His statements are significant as bearing on the need and practicality of the Montana Water Courts operation:

> I agree with the district court. Water adjudication is essentially a local concern, and in every western state water scarcity poses a problem not just to Indians but to everyone. In

> my view, it is highly important that each state be accorded room for an effort to solve its water scarcity problem in the manner it regards as most appropriate. Here so long as Montana gives recognition to Indian water rights and their establishment pursuant to federal law, I see no good reason why Indians shouldn't be joined with other water users in the state in order to achieve a comprehensive state adjudication.

Finally, the federal law on the Montana Water Courts, as spoken by the Supreme Court of the United States, through Justice Brennan for the Majority:

> In light of this history, the parties in this case have engaged in a vigorous debate as to the exact meaning and significance of the Arizona and Montana Enabling Acts. We need not resolve that debate, however, nor need we resort to the more general doctrines that have developed to chart the limits of state authority over Indians, because we are convinced that, whatever limitation the Enabling Acts or federal policy may have originally placed on state court jurisdiction over Indian water rights, those limitations were removed by the McCarran Amendment.

And on specific problems of Indian rights and federal reservations vis-a-vis Montana State program by adjudication, the Justice continued:

> But the most important consideration in Colorado River, and the most important consideration in any federal water suit concurrent to a comprehensive state proceeding, must be the "policy underlying the McCarran Amendment," 424 U>S., at 820; see Moses H. Cone Hospital, supra, at _____, and, despite the strong arguments raised by the respondents, we cannot conclude that water rights suits brought by Indians and seeking adjudication only of Indian rights should be excepted from the application of that policy or from the general principles set out in Colorado River.

Even more important is Justice Brennan's clear approval of what the Montana Water Courts can do:

> . . . assuming that the state adjudications are adequate to quantify the rights at issue in the federal suits, and taking into account the McCarran Amendment policies we have just discussed, the expertise and administrative machinery available to the state courts, the infancy of the federal suits, the general judicial bias against piecemeal litigation, and the convenience to the parties, we must conclude that the District Courts were correct in deferring to the state proceedings.

We here at the Montana Water Courts know the Justice is not retreating from general principles of Indian rights, and federal reservations. In these words he makes the understanding clear:

> Nothing we say today should be understood to represent even the slightest retreat from the general proposition we expressed so recently in New Mexico v. Mescalero Apache Tribe, ante, at _____, (1983): "Because of their sovereign status, [Indian] tribes and their reservation lands are insulated in some respects by an 'historic immunity from state and local control,' Mescalero Apache Tribe v. Jones, 411 U.S. 145, 152 (1973),.and tribes retain any aspect of their historical sovereignty not inconsistent with the overriding interests of the National Government.' Washington v. Confederated Tribes, [447 U.S. 134, 153 (1980)]." Nor should we be understood to retreat from the general proposition, expressed in Colorado River, that federal courts have a "virtually unflagging obligation. . . to exercise the jurisdiction given them." 424 U.S., at 817. See generally Moses H. Cone Hospital, supra, at _____ _____ _____. But water rights adjudication is a virtually unique type of proceeding, and the McCarran Amendment is a virtually unique federal statute, and we cannot in this contract be guided by general propositions.

Further:

> We also emphasize, as we did in Colorado River that our decision in no way changes the substantive law by which Indian rights in state water adjudication must be judged. State courts, as much as federal courts, have a solemn obligation to follow federal law. Moreover, any state court decision alleged to abridge Indian water rights protected by federal law can expect to receive, if brought for review before this Court, a particularized and exacting scrutiny commensurate with the powerful federal interest in safeguarding those rights from state encroachment.

The Act creating the Water Courts and its jurisdiction and its operation meets the caveats of Justice Brennan's opinion. This is evident in the careful adjustment of the general adjudication process to special problems of Indian and federal reserved rights.

> 85-2-701. Legislative intent. Because the water and water rights within each water division are interrelated, it is the intent of the legislature to conduct unified proceedings for the general adjudication of existing water rights under the Montana Water Use Act. Therefore, it is the intent of the legislature that the attorney general's petition required in 85-2-211 include all claimants of reserved Indian water rights as necessary and indispensable parties under authority granted the state by 43 USC 666. However, it is further intended that the state of Montana proceed under the provisions of this part in an effort to conclude compacts for the equitable division and apportionment of waters between the state and its people and the several Indian tribes claiming reserved water rights within the state.
>
> 85-2-702. Negotiation with Indian tribes. (1) The reserved water rights compact commission, created by 2-15-212, may negotiate with the Indian tribes or their authorized representatives jointly or severally to conclude compacts under 85-2-701. Compact proceedings shall be commenced by the commission. The commission shall serve by

A strict construction of the language used in 85-2-231(d) which states, "The preliminary decree shall be issued within 90 days after the close of the special filing period.", read together with 85-2-270(3), which says that the reserved rights not resolved by an approved compact "must be filed" and "shall be used in the formulation of a preliminary decree" indicates that either approved compacts of filed claims are technically necessary to issue a preliminary decree. However, this strict construction of the legislation could frustrate the clear legislative purpose underlying SB76, which is to "expedite and facilitate" the general adjudication of water rights, by slowing the adjudication process.

The Legislature has authorized the use of an interlocutory decree or "other temporary decrees" prior to the issuance of a preliminary decree when it is needed for "the orderly administration of water rights," 85-2-231. The inclusion of this procedure supports the argument that a preliminary decree should not be issued lacking an approved compact or filed reserved right claims. On the other hand, it also supports the argument that the Court should proceed expeditiously to adjudicate basins even though the extent and quantity of federal reserved right claims is undetermined and unknown.

After close study of the language pertaining to preliminary decrees in the Water Use Act, we should conclude that 85-2-231 technically requires inclusion of approved compacts or filed claims for reserved rights. But as a practical matter it is insignificant whether the decree is called a preliminary or a

temporary decree if they both do the same thing. Furthermore, if both decrees have the same legal effect, the use of the normal procedure, which involves issuance of a preliminary decree, makes sense because it is consistent with the general adjudication procedures established by the Legislature and the Water Courts, and, therefore best serves the orderly administration of water rights.

All pertinent case law in talking of state adjudication programs speak of a "state-wide unified adjudication" of water.

As stated, our Federal District Court of Montana, (Chief Judge James F. Battin and Judge Paul G. Hatfield), have characterized Montana's adjudication of water with these words:

> "It is clear that the adjudication contemplated by the Bill is both comprehensive and efficient."

And the 9th Circuit granted a stay of Federal actions as preferable to dismissal. The Court clearly states:

> "Moreover the question of adequacy of the State proceedings is one best decided by the State Courts in the first instance."

Further, the McCarran Amendment as interpreted in Colorado River allows and encourages a comprehensive water adjudication to quantify Indian water rights.

And Justice Brennan said:

> "... and, despite the strong arguments raised by the respondents, we cannot conclude that water rights suits brought by Indians and seeking adjudication only of Indian rights should be excepted from

the application of that policy or from the general principles set out in Colorado River. In the cases before us, assuming that the state adjudications are adequate to quantify the rights at issue in the federal suits, and taking into account the McCarran Amendment policies we have just discussed, the expertise and administrative machinery available to the the state courts, the infancy of the federal suits, the general judicial bias against piecemeal litigation, and the convenience to the parties, we must conclude that the District Courts were correct in deferring to the state proceedings."

What of our general adjudication of Montana water? Is it comprehensive? Is it effective? Clearly SB76 (C. 697) is comprehensive. Its mandate from the Legislature is to adjudicate all the water resources. It seeks and will quantify all of Montana's water. The water of individuals, municipal corporations, other corporate entitles, Indian water rights, and other Federal reserved rights in Montana - all of this to the end that statewide we will have certainty as to our water - where it is, who owns it, what it is used for, how long it is used, the source. In fact, the caption item of the water right issued by the Water Courts best shows its comprehensive character of over 200,000 individual and corporate water claims and unnumbered Indian rights and Federal reserved rights. Here is a caption of the water right issued:

GENERAL REMARKS:

Comprehensive is the key description of the Water Courts plan.

Long before actual gathering of the thousands of water claims, the Court with the help of the Department of Natural Resources and Conservation prepared an Atlas of Water Resources by Hydrologic Basins. This inventory of surface water resources consists of drainage basin maps showing location and relation to each other.

From the three major Continental Basins, a division was made within the State of six major drainage basins based on the streams which flow out of the State and do not reenter: the Kootenai, Clark Fork of the Columbia, St. Mary, Missouri, Yellowstone and Little Missouri. The Belle Fourche drainage of the Cheyenne River in South Dakota extends into a small area of the southeast corner of Montana.

Then the six major drainage basins were divided into 15 sub-major drainage basins consisting of the Upper Clark Fork, Lower Clark Fork; Flathead and Kootenai River Basins in the Columbia River drainage; the Upper Missouri tributaries; Missouri-Smith, Missouri-Sun-Marias; Missouri-Musselshell; Milk; and Missouri-Fork Peck Basins in the Missouri River drainage; the Upper Yellowstone; Middle Yellowstone; and Lower Yellowstone

River Basins in the Yellowstone drainage; the St. Mary River Basin in the Hudson Bay drainage; and the Little Missouri River Basin.

Then again the 15 sub-major basins were divided into 85 minor drainage basins representing the minor tributaries within the State. On a statewide plan of 85 basins, the Court began its statewide adjudication. All of these are based on the work of the Office of Water Data Coordination; U.S. Department of the Interior; Geological Survey Atlas of stream gaging stations. Slight modifications clearly do not significantly change any of the OWDC basins.

The Atlas includes twelve maps showing the 15 sub-major drainage basins with two of these maps showing more than one of the drainage basins on one map page. The maps show culture in black, power lines in grey, and streams and stream names in blue. The major, sub-major, and minor drainage basin boundary lines are shown in three significant widths of red lines. Existing and proposed flood control projects are located by red stars with open stars representing potential projects while closed stars designate existing projects. Blue triangle represent U.S.G.S. stream discharge gaging stations with righted triangles representing stations active as of January 1, 1970, and inverted triangles representing those stations, used in the past, but now discontinued. Green areas on the maps represent presently irrigated land according to the county-wide surveys being conducted by the water resources survey division, Montana Water Resources Board.

The last two maps in the Atlas are prepared by the Montana Water Resources Board staff from information supplied by cooperating agencies.

The first is one prepared through a joint e. ort of the Water Board and the Montana Fish and Game Department. Shown in green are the fishing access sites, state parks and monuments, and state recreation areas maintained by the Fish and Game Department throughout the State. An index to this map provides the proper names of each of these sites as of January 1, 1970.

The last map in the Atlas shows mountain precipitation by colored isohyet lines representing increments of annual precipitation above 20 inches. This map was prepared in cooperation with the Soil Conservation Service and the National Weather Service.

This detailed information should make clear the detailed planning of our comprehensive, statewide program.

The unification of our statewide plan of state court adjudication of water rights is evident in our approach toward Indian water rights and Federal reserved rights.

The Compact Commission is organized; is working; is talking with the Indian tribes concerning compacts on their water. The Compact Commission is attempting to secure talks with the Forest Service.

All of this procedure is considered by the Water Courts because in the words of the law, ". . . the water and water rights within each water division are interrelated, it is the intent of the legislature to conduct unified proceedings for the

general adjudication of existing water rights. . ."

And so the Water Courts Rule of Court Number 10 and its findings of fact on compacts and federal reservations meet the requirement for unified proceedings. And in some extreme cases to meet what the words of the statute call "the orderly administration of water rights prior to the issuance of a preliminary decree" the Water Court can use an "interlocutory" or "temporary" decree.

In any event, the statewide unified adjudication of water goes on.

DATED this 1st day of May, 1985.

NOTICE OF ENTRY OF

PRELIMINARY DECREE AND

NOTICE OF AVAILABILITY

IN THE WATER COURTS OF THE STATE OF MONTANA
LOWER MISSOURI DIVISION
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* *

NOTICE OF ENTRY OF TEMPORARY PRELIMINARY DECREE AND
NOTICE OF AVAILABILITY

Since you have filed a claim for a water right existing before July 1, 1973, we are sending with this Notice your abstract of your claim entered on the Musselshell River Above Roundup Basin.

However, if you received a certificate or applied for a "water use permit to appropriate" or reserve water under the 1973 Water Use Act do not expect to receive an abstract of that document.

This Notice is being sent to others as required in 85-2-232 MCA.

WHAT IS A TEMPORARY PRELIMINARY DECREE

A Temporary Preliminary Decree decides the water rights in the Musselshell River Above Roundup Basin, and lists those water rights.

If you don't agree with what it decides as to your right or any other water right which may affect your water right claims, you may file an objection, request a hearing and the Water Courts will hear it. See the general Findings of Fact and Conclusions of Law for further explanation of your right.

A water right in the Temporary Preliminary Decree remains unchanged and will be so entered in the Final Decree if it is not objected to during the objection period. However, if determinations of Indian and Federal reserved water rights present circumstances affecting that water right, additional objections may be filed.

IF A RIGHT IS NOT OBJECTED TO, IT SHALL REMAIN UNCHANGED AND BE ENTERED IN THE FINAL DECREE.

HOW YOU FILE AN OBJECTION AND REQUEST A HEARING

An objection must be filed on the forms provided by the Water Courts. The offices where these forms can be found are listed on page 2 of this Notice.

All objections must be filed and received by the 6th day of August, 1985. Objections must be sent to the Montana State Water Courts, P.O. Box 879, Bozeman, MT 59715.

CAN YOU GET AN EXTENSION?

Extension for filing objections may be granted by the Water Judge. Requests must be received by the Water Courts on or before the 6thday of August, 1985. Use the form furnished by the Water Courts.

If an extension is granted, it applies to all within this Basin. A copy of the extension may be seen at the Clerk of Court offices listed below and it will be advertised in local newspapers.

WHERE YOU CAN SEE OR GET THE TEMPORARY DECREE (AND FINDINGS OF FACT AND CONCLUSIONS OF LAW) FOR BASIN 40A

See it at:
1. Water Courts Office, P.O. Box 879, Bozeman, MT 59715

(Over Please)

2. Department of Natural Resources, Water Rights Bureau, 32 South Ewing, Helena, MT 59620
3. Department of Natural Resources Field Office, P. O. Box 438, 613 NE Main, Lewistown, MT 59457.
4. Clerk of the Court, Wheatland County, Harlowton, MT 59036
5. Clerk of the Court, Golden Valley Co., Ryegate, MT 59074
6. Clerk of the Court, Musselshell Co., Roundup, MT 59072

If it is more convenient, you can see a microfiche copy of the entire Temporary Preliminary Decree and index at:

1. Clerk of the Court, Fergus County, Lewistown, MT 59457
2. Clerk of the Court, Sweet Grass County, Big Timber, MT 59011
3. Clerk of the Court, Park County, Livingston, MT 59047
4. Clerk of the Court, Yellowstone Co., Billings, MT 59101
5. Clerk of the Court, Stillwater Co., Columbus, MT 59019

Microfilm of the original water right claims and the abstracts as reviewed by DNRC at:

1. Water Courts Office, P.O. Box 879, Bozeman, MT 59715
2. Department of Natural Resources, Water Rights Bureau, 32 South Ewing, Helena, MT 59620
3. Department of Natural Resources, Field Office, P.O. Box 438 613 NE Main, Lewistown, MT 59457.
4. Clerk of the Court, Golden Valley County, Ryegate, MT 59074

You can buy a copy of the Temporary Preliminary Decree at the Department of Natural Resources, Water Rights Bureau, 32 South Ewing, Helena, MT 59620. The cost is $ 100.00 .

Any questions? Use our toll free number 1-800-6 ..0. Our regular office number is 406-586-4364. It is not toll free.

AFTER OBJECTIONS ARE FILED

After the time for filing objections has passed, the Water Courts will notify each party named in the Decree that hearings have been requested and set a date for all interested parties to notify the Water Courts of their intent to participate in any of those hearings.

THE WATER COURT RULES AND FORMS CAN BE FOUND AT THE OFFICES LISTED BELOW:

1. Water Courts Office, P.O. Box 879, Bozeman, MT 59715

O R D E R

DESIGNATING THE DNRC TO MAIL NOTICE OF
AVAILABILITY OF THE TEMPORARY PRELIMINARY DECREE

This Order complies with the requirements of 85-2-232 MCA.

ORDERED that the Department of Natural Resources and Conservation send by mail to each person and their successor in interest, if known, who has filed a claim of existing right in the Musselshell River Above Roundup Basin (40A), a copy of the Notice of Availability of the Temporary Preliminary Decree on that Basin and an abstract of the disposition of such person's claim of existing right.

ORDERED specifically that the Notice of Availability be mailed to: (1) all parties in the Musselshell River Above Roundup Basin (40A), issued permits for water use in that Basin pursuant to 85-2-301 MCA or their successor in interest, if known; (2) all parties who have applied for and have not been denied permits for use of water in the Musselshell River Above Roundup Basin, pursuant to 85-2-301 MCA; (3)

all parties who have been granted a reservation in the Musselshell River Above Roundup Basin, pursuant to 85-2-316 MCA; (4) all parties in the Musselshell River Above Roundup Basin, who have received certificates of water rights pursuant to 85-2-306 MCA for wells under 100 gallons per minute; (5) all federal land management agencies in the Lower Missouri Water Division; (6) all neighboring states of the Lower Missouri Water Division; (7) all Indian tribes of the Lower Missouri Water Division; (8) the County Clerk of Court and Clerk and Recorder of Wheatland, Golden Valley, Meagher, Fergus, Musselshell, Sweet Grass, Park, Yellowstone and Stillwater Counties, Montana; (9) any other persons who have requested service of notice from the Water Judge.

ORDERED that the Montana State Water Courts publish the Notice of Availability in newspapers of general circulation in the Musselshell River Above Roundup Basin, including the Billings Gazette, Columbus News, Meagher County News, News-Argus of Lewistown, Roundup Record-Tribune and Times-Clarian of Harlowton, including any advertisement which may bring the Notice of Availability to the attention of the public.

ORDERED that the Department shall make a general certificate of mailing certifying that a copy of notice has been placed in the United States Mail, postage prepaid and addressed to each party required by this Order to be served notice of the Temporary Preliminary Decree.

FINALLY IT IS ORDERED that the original certificate of

mailing be filed with the Montana State Water Courts.

DATED this 1st day of May, 1985.

W. W. LESSLEY
Chief Water Judge

MUSSELLSHEL RIVER ABOVE ROUNDUP BASIN (Basin 40A)

AMENDED CERTIFICATE OF MAILING

Notice of Entry and Notice of Availability
of the Temporary Preliminary Decree for the
Musselshell River above Roundup Basin (Basin 40A)

* *

State of Montana)
) ss:
County of Lewis and Clark)

I, JAMES E. KINDLE, Records Supervisor for the Water Resources Division of the Department of Natural Resources and Conservation of the State of Montana, hereby certify that all return mail for the Notice of Entry and Notice of Availability of the Temporary Preliminary Decree for the Musselshell River above Roundup Basin (Basin 40A) has been researched by the water rights field offices and that based on their research the following has been sent, postage prepaid, first class, United States Mail:

A. For persons filing claims;

1. owner address changes only. Based on research, all parties have been sent the Notice of Entry and Notice of Availability of the Temporary Preliminary Decree. When address changes were confirmed by the claimants to the Department, abstracts showing dispositions of each party's filings have also been sent;

2. transfered owners. Based on research, all apparent successors in interest for water rights concerning return mail have been sent the Notice of Entry and Notice of Availability of the Temporary Preliminary Decree and Water Right Transfer Certificate forms.

B. For post July 1, 1973 water rights;

1. all parties in the Musselshell River above Roundup issued permits for water use in that Basin pursuant to 85-2-301, MCA, 1978, or their successor in interest;

2. all parties who have applied for permits for the use of water in the Musselshell River above Roundup Basin pursuant to 85-2-301, MCA, 1978;

3. all parties who have been granted a reservation in the Musselshell River above Roundup Basin pursuant to 85-2-316, MCA, 1978;

4. all parties in the Musselshell River above Roundup Basin who have received certificates of water rights pursuant to 85-2-306, MCA, 1978, for wells under 100 gallons per minute; the following has been sent:

a. owner address changes only. Based on research, all parties have been sent the Notice of Entry and Notice of Availability of the Temporary Preliminary Decree;

b. transfered owners. Based on research, all apparent successor in interest for water rights concerning return mail have been sent the Notice of Entry and Notice of Availability of the Temporary Preliminary Decree and Water Right Transfer Certificate forms. This mailing and distribution was made under my direction and control from May 7, 1985 to December 17, 1985.

Original documents concerning return mail, envelopes, research, correspondence, field office confirmation and field office certification of mailing can be found in original files and microfilm files.

Dated this 18th day of DECEMBER 1985.

James E. Kindle

JAMES E. KINDLE, Supervisor
Records Section, Water Rights Bureau
Water Resources Division
Dept. of Natural Resources and
Conservation
State of Montana

attachment
Log of noticed water right owners in the basin

State of Montana)
: ss.
County of Lewis & Clark)

On this 18th day of DECEMBER 1985, before me, a Notary Public in and for said state, personally appeared James E. Kindle, known to me to be a Supervisor for the Water Resources Division of the Department of Natural Resources and Conservation, and acknowledges to me that he, in his official capacity, executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed by official seal, the day and year in this certificate first above written.

Judy Kohn
Notary Public for the State of Montana
Residing at Helena
My commission expires 3-1-88

IN THE MATTER OF THE ADJUDICATION OF THE EXISTING RIGHTS TO THE USE OF ALL THE WATER, BOTH SURFACE AND UNDERGROUND, WITHIN THE MUSSELSHELL RIVER DRAINAGE AREA ABOVE ROUNDUP, INCLUDING ALL TRIBUTARIES OF THE MUSSELSHELL RIVER ABOVE ROUNDUP IN WHEATLAND, GOLDEN VALLEY, MEAGHER, FERGUS, MUSSELSHELL, SWEET GRASS, PARK, YELLOWSTONE, AND STILLWATER COUNTIES MONTANA.	)

O R D E R

DESIGNATING THE DNRC TO MAIL NOTICES OF OBJECTION AND REQUEST FOR PRELIMINARY HEARING

ORDERED that the Department of Natural Resources and Conservation send by mail to each person and their successor in interest, if known, who was named in the Temporary Preliminary Decree in the Musselshell River Above Roundup Basin (40A), a copy of the Notice of Objection and Request for Preliminary Hearing.

ORDERED that the Department of Natural Resources and Conservation shall make a general certificate of mailing certifying that a copy of the Notice has been placed in the United States Mail, postage prepaid, and addressed to each party to be served by this Order.

FINALLY IT IS ORDERED that the original certificate of mailing be filed with the Montana State Water Courts.

DATED this 1st day of April, 1986.

W. W. LESSLEY

CERTIFICATE OF MAILING

The Notice of Objection and Request for Preliminary Hearing
on the Musselshell River above Roundup Basin Temporary Preliminary Decree
(Basin 40A)

* *

State of Montana)
) ss:
County of Lewis and Clark)

I, JAMES E. KINDLE, Records Supervisor for the Water Resources Division of the Department of Natural Resources and Conservation of the State of Montana, hereby certify that:

A. The Notice of Objection and Request for Preliminary Hearing for each person filing a claim for the Musselshell River above Roundup Basin (Basin 40A) has been placed in the United States Mail, postage prepaid and addressed to each party as per the records of the Water Rights Bureau, Department of Natural Resources and Conservation, April 8, 1986, and updated records of May 7, 1985.

B. The Notice of Objection and Request for Preliminary Hearing for the Musselshell River above Roundup Basin (Basin 40A) has been placed in the United States Mail, postage prepaid and addressed to each party as per the records of the Water Rights Bureau, Department of Natural Resources and Conservation, April 8, 1986, and updated records of May 7, 1985, for; (1) all parties in the Musselshell River above Roundup Basin issued permits for water use in that basin pursuant to 85-2-301, MCA, 1978, or their successor in interest, if known; (2) all parties who have applied for permits for use of water in the Musselshell River above Roundup Basin pursuant to 85-2-301, MCA, 1978; (3) all parties who have been granted a reservation in the Musselshell River above Roundup Basin pursuant to 85-2-316, MCA, 1978; (4) all parties in the Musselshell River above Roundup Basin who have received certificates of

water rights pursuant to 85-2-306, MCA, 1978, for wells under 100 gallons per minute; (5) all federal land management agencies in the Lower Missouri Water Division; (6) all Indian Tribes in the Lower Missouri Water Division; (7) all neighboring states of the Lower Missouri Water Division; (8) the County Clerk of Court and Clerk and Recorder of Sweet Grass, Park, Stillwater, Yellowstone, Wheatland, Golden Valley, Meagher, Musselshell and Fergus Counties, Montana; (9) any other persons who have requested service of notice from the Water Judge.

This mailing and distribution was made under my direction and control on April 8, 1986.

Dated this 9th day of APRIL 1986.

James E. Kindle

NOTICE OF OBJECTION AND REQUEST FOR PRELIMINARY HEARING

IN THE WATER COURTS OF THE STATE OF MONTANA
LOWER MISSOURI DIVISION
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* *

NOTICE THAT OBJECTIONS HAVE BEEN FILED AND THOSE OBJECTORS HAVE REQUESTED PRELIMINARY HEARINGS

This is notice that objections have been filed and hearings have been requested on several of the water rights issued in the Musselshell River Above Roundup Basin Temporary Preliminary Decree. If your water right was objected to by another party or called in on Motion of the Water Courts, you will receive a special notice of that objection or Motion attached to this sheet.

WHAT HAPPENS NEXT?

A hearing will be held on those water rights that have been objected to. You are notified that an individual water right may be altered as a result of a hearing requested by another party.

WE SUGGEST YOU LOOK AT ALL OF THE OBJECTIONS FILED IN THE MUSSELSHELL RIVER ABOVE ROUNDUP BASIN. YOU CAN THEN DECIDE WHETHER YOU WANT TO APPEAR AND TAKE PART IN ANY HEARINGS. SEE BELOW WHERE YOU CAN SEE THE LIST OF OBJECTIONS FOR YOUR BASIN.

An abstract of water right may reflect information obtained during verification that differs from the original claim. If an abstract reflects such changes, the claimant may contest that information by filing a Notice of Intent to Appear form. If no protest is made, the claim may be modified in accordance with the verified information by the Water Court when the next decree is issued, a hearing may be held or the Water Court may take whatever action is necessary in the exercise of its judicial discretion.

HOW TO APPEAR AND PARTICIPATE IN HEARINGS ON OBJECTIONS

To participate in any hearing on objections filed in this Basin, you MUST file a Notice of Intent to Appear. THAT NOTICE MUST BE ON THE FORMS PROVIDED BY THE WATER COURTS. These forms can be found at the offices listed on page 2.

ALL NOTICES TO APPEAR MUST BE FILED AND RECEIVED BY THE 6th DAY OF May, 1986.

Notices to Appear must be sent to the Water Courts, P.O. Box 879, Bozeman, MT 59715.

The failure to file a Notice of Intent to Appear may, at the discretion of the Water Judge or Water Master, result in the exclusion of the party at further proceedings or in the continuance of the hearing if the party failing to file appears at the hearing. THOSE PARTIES WHO FILED THE ORIGINAL OBJECTION DO NOT NEED TO FILE A NOTICE OF INTENT TO APPEAR AND PARTICIPATE.

WHERE TO SEE THE LIST OF OBJECTIONS

A listing of all of the objections is available for review at:

1. Water Courts Office, P.O. Box 879, Bozeman, MT 59715
2. Department of Natural Resources and Conservation, Water Rights Bureau, 1520 E. Sixth Avenue, Helena, MT 59620
3. Department of Natural Resources and Conservation, Field Office, P. O. Box 438, 623 NE Main, Lewistown, MT
4. Clerk of Court, Sweet Grass County Courthouse, Big Timber, MT.
5. Clerk & Recorder, Sweet Grass County Courthouse, Big Timber, MT
6. Clerk of Court, Park County Courthouse, Livingston, MT
7. Clerk & Recorder, Park County Courthouse, Livingston, MT
8. Clerk of Court, Stillwater County, Columbus, MT 59019
9. Clerk & Recorder, Stillwater County, Columbus, MT 59019
10. Clerk of Court, Yellowstone Co., Billings, MT 59101
11. Clerk & Recorder, Yellowstone Co., Billings, MT 59101
12. Clerk of Court, Wheatland County, Harlowton, MT 59036
13. Clerk & Recorder, Wheatland County, Harlowton, MT 59036
14. Clerk of Court, Golden Valley Co., Ryegate, MT 59074
15. Clerk & Recorder, Golden Valley Co., Ryegate, MT 59074
16. Clerk of Court, Meagher Co., White Sulphur Springs, MT
17. Clerk & Recorder, Meagher Co., White Sulphur Spring, MT
18. Clerk of Court, Musselshell Co., Roundup, MT 59072
19. Clerk & Recorder, Musselshell Co., Roundup, MT 59072
20. Clerk of Court, Fergus County, Lewistown, MT 59457
21. Clerk & Recorder, Fergus County, Lewistown, MT 59457

(over please)

A copy of any specific objection in its entirety can be obtained from the Water Courts, P.O. Box 879, Bozeman, MT 59715; telephone toll free in Montana 1-800-624-3270 or (406) 586-4364.

If you have other questions, you may call the Water Courts.

WHAT HAPPENS AFTER?

The Court shall notify those parties who filed an objection or Notice to Appear in a particular preliminary hearing before the time any proceedings are set by the Water Courts.

THE WATER COURT RULES AND FORMS ARE AVAILABLE AT THE OFFICES LISTED BELOW:

1. Water Courts Office, P.O. Box 879, Bozeman, MT 59715
2. Clerk of Court, Sweet Grass County Courthouse, Big Timber, MT.
3. Clerk of Court, Park County Courthouse, Livingston, MT.
4. Clerk of Court, Stillwater County, Columbus, MT
5. Clerk of Court, Yellowstone County, Billings, MT
6. Clerk of Court, Wheatland County, Harlowton, MT
7. Clerk of Court, Golden Valley County, Ryegate, MT
8. Clerk of Court, Meagher County, White Sulphur Springs, MT
9. Clerk of Court, Musselshell County, Roundup, MT
10. Clerk of Court, Fergus County, Lewistown, MT

DATED this 8th day of April, 1986.

W.W. LESSLEY
Chief Water Judge
Montana State Water Courts
P.O. Box 879
Bozeman, MT 59715

CERTAIN CLAIMS INVOLVING THE INTERBASIN TRANSFER OF WATER WERE NOT PUBLISHED IN THE TEMPORARY-PRELIMINARY DECREE FOR THE MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A). THESE CLAIMS ALL INVOLVE THE WITHDRAWAL OF WATER FROM ANOTHER BASIN, BUT THE USE OF THAT WATER OCCURS IN THIS BASIN. THE ABSTRACTS OF THESE INTERBASIN CLAIMS ARE ATTACHED TO THE OBJECTION LIST AND HAVE BEEN INSERTED IN THE TEMPORARY PRELIMINARY DECREE FOR THE MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A).

ALL CLAIMANTS HAVE UNTIL JULY 11, 1986, TO FILE AN OBJECTION AGAINST ONLY THESE INTERBASIN CLAIMS.

WATER RIGHT #	OWNER	SOURCE	USE
43BV-W-114046	Cayuse Livestock Co.	Sweet Grass Creek	Irrigation
43BV-W-114047	Cayuse Livestock Co.	Sweet Grass Creek	Irrigation
43BV-W-114050	Cayuse Livestock Co.	Sweet Grass Creek	Irrigation

N O T I C E

IN THE WATER COURTS OF THE STATE OF MONTANA
LOWER MISSOURI DIVISION
MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A)
* * * * * * * * * * * * * * * * * *

CERTAIN CLAIMS INVOLVING THE INTERBASIN TRANSFER OF WATER WERE NOT PUBLISED IN THE TEMPORARY-PRELIMINARY DECREE FOR THE MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A). THESE CLAIMS ALL INVOLVE THE WITHDRAWAL OF WATER FROM ANOTHER BASIN, BUT THE USE OF THAT WATER OCCURS IN THIS BASIN. THE ABSTRACTS OF THESE INTERBASIN CLAIMS ARE ATTACHED TO THE OBJECTION LIST AND HAVE BEEN INSERTED IN THE TEMPORARY PRELIMINARY DECREE FOR THE MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (40A).

ALL CLAIMANTS HAVE UNTIL JULY 11, 1986, TO FILE AN OBJECTION AGAINST ONLY THESE INTERBASIN CLAIMS.

TOTAL	3,040.00							

REMARKS: THE WATER RIGHTS FOLLOWING THIS STATEMENT ARE SUPPLEMENTAL, WHICH MEANS THE RIGHTS HAVE OVERLAPPING PLACES OF USE. THE RIGHTS CAN BE COMBINED TO IRRIGATE ONLY OVERLAPPING PARCELS OF THE CLAIMANT'S TOTAL 3,472.00 ACRES. THE COMBINED VOLUME OF THESE RIGHTS SHALL NOT EXCEED 20,983.67 ACRE-FEET PER YEAR. EACH RIGHT IS LIMITED TO THE FLOW RATE, VOLUME, PLACE OF USE AND BENEFICIAL USE OF THAT INDIVIDUAL RIGHT.

MUSSELSHELL RIVER ABOVE ROUNDUP BASIN (Basin 40A)

AMENDED CERTIFICATE OF MAILING

Notice of Objection and Request for Prliminary Hearing for the
Temporary Preliminary Decree for the Musselshell River above Roundup Basin
(Basin 40A)

* *

State of Montana)
) ss:
County of Lewis and Clark)

I, JAMES E. KINDLE, Records Supervisor for the Water Resources Division of the Department of Natural Resources and Conservation of the State of Montana, hereby certify that all return mail for the Notice of Objection and Request for Preliminary Hearing for the Temporary Preliminary Decree for the Musselshell River above Roundup Basin (Basin 40A) has been researched by the water rights field offices and that based on their research the following has been sent, postage prepaid, first class, United States Mail:

A. For persons filing claims;

1. owner address changes only. Based on research, all parties in the Musselshell River above Roundup Basin have been sent the Notice of Objection and Request for Preliminary Hearing for the Temporary Preliminary Decree.

2. transfered owners. Based on research, all apparent successors in interest in the Musselshell River above Roundup Basin for water rights concerning return mail have been sent the Notice of Objection and Request for Preliminary Hearing for the Temporary Preliminary Decree and Water Right Transfer Certificate forms.

B. For post July 1, 1973 water rights;

1. all parties in the Musselshell River above Roundup Basin issued permits for water use in that Basin pursuant to 85-2-301, MCA, 1978, or their successor in interest;

2. all parties who have applied for permits for the use of water in the Musselshell River above Roundup Basin pursuant to 85-2-301, MCA, 1978;

3. all parties who have been granted a reservation in the Musselshell River above Roundup Basin pursuant to 85-2-316, MCA, 1978;

4. all parties in the Musselshell River above Roundup Basin who have received certificates of water rights pursuant to 85-2-306, MCA, 1978, for wells under 100 gallons per minute; the following has been sent:

a. owner address changes only. Based on research, all parties have been sent the Notice of Objection and Request for Preliminary Hearing for the Temporary Preliminary Decree;

b. transfered owners. Based on research, all apparent successors in interest for water rights concerning return mail have been sent the Notice of Objection and Request for Preliminary Hearing for the Temporary Preliminary Decree and Water Right Transfer Certificate forms.

This mailing and distribution was made under my direction and control from April 8, 1986 to July 10, 1986.

Original documents concerning return mail, envelopes, research, correspondence, field office confirmation and field office certification of mailing can be found in original files and microfilm files.

Dated this 11th day of JULY 1986.

James E. Kindle

JAMES E. KINDLE, Supervisor
Records Section, Water Rights Bureau
Water Resources Division
Dept. of Natural Resources and
Conservation
State of Montana

attachment
Log of noticed water right owners in the basin

State of Montana)
: ss.
County of Lewis & Clark)

On this 11 day of July 1986, before me, a Notary Public in and for said state, personally appeared James E. Kindle, known to me to be a Supervisor for the Water Resources Division of the Department of Natural Resources and Conservation, and acknowledges to me that he, in his official capacity, executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed by official seal, the day and year in this certificate first above written.

Ann P. Gilman

Notary Public for the State of Montana
Residing at Helena
My commission expires 1-21-1987

ATTACHMENT TO THE AMENDED CERTIFICATE OF MAILING FOR THE NOTICE OF OBJECTION AND REQUEST FOR PRELIMINARY HEARING.

BASIN. 40A

THE DIFFERENCES BETWEEN THE FOLLOWING NAME VARIATION LIST AND THE ONE ATTACHED TO THE AMENDED CERTIFICATE OF MAILING FOR THE NOTICE OF ENTRY AND AVAILABILITY FOR THE TEMPORARY AND/OR PRELIMINARY DECREE REFLECT THE RETURN MAIL FROM THE NOTICE OF OBJECTION AND REQUEST FOR PRELIMINARY HEARING MAILING.
